*Masters of New Jewellery Design* Carlos Pastor, 2019-04 *Masters of New Jewellery Design* offers a bold and daring look at the intriguing and fascinating world of contemporary jewellery design through some of the field's most prominent international artists and emerging new talents. They present their latest designs while reflecting upon the meaning of their work, their use of techniques and materials, their life experiences and their sources of inspiration. The result is as extensive and international as it is intimate and personal. The pages of this book show the beauty of everyday materials: paper, recycled wood or plastics, rubber, bone, charcoal, which can often be combined with other more traditional ones but which also have their own aesthetic value. Jewellery freed itself some time ago from many of its technical constraints and it does not just use the jeweller's own methods. Rather, it has investigated the heritage of other crafts and other technologies to integrate them based on the artistic language that each creator wants to develop. The contributors include Anastasia Young, Anthony Roussel, Beth Legg, Jacqueline Ryan, UK, Adam Grinovich, USA.      **Jewellery** Cyril Davenport, 1910      **Masters: Gold** Marthe Le Van, Ray Hemachandra, 2009. All that glitters here is gold and it's gorgeous. This addition to the popular Masters series focuses on a topic gold jewelry with mass appeal to a wide audience: jewelers, metalsmiths, collectors, museums and just about anyone who loves beautiful workmanship. Leading jewelry expert Marthe Le Van has chosen 40 of the world's best goldsmiths and presents their finest pieces. A short essay accompanies each eight-page section along with choice quotes from the featured artists. The talented creators showcased here include Eva Steinberg, Germany. Art Nouveau influences abound in her colorful earrings and pendants. Namu Cho, Korea, United States. Cho employs the ancient technique of Korean damascene known as poe mok saang gum. Claude Chavent, France. He plays with the optical illusions of trompe l'oeil, bringing volume and movement to his dazzling flat pieces. Stuart Golder, United States. Golder weaves sheets and wires of gold on a loom, designing elaborate patterns based on traditional cloth weaving.      The Best Knowledge of Gemology to Select Gemstone II Ram Babu Sao, 2025-11-16.
