## **Materializing Thailand:**

*Materializing Thailand* Penny Van Esterik, 2020-05-28 Thailand has become well known throughout the world for wonderful cuisine great package holidays sumptuous temples and textiles. Noticeably absent from glossy tourist brochures but equally well known throughout the Western world is Thailand's seedier side the world of child exploitation, rampant prostitution and AIDS. Thailand maintains its appeal by slipping the ugly and painful out of sight and by promoting women as exotic visual icons through beauty contests, state rituals and the sex trade. This book explores the construction of gender in Thailand and in particular the role Bangkok plays in establishing gender relations for the whole of the country. It examines the historical and cultural processes underlying Thai public culture including historical theme parks. The author demonstrates how the materiality of the Thai world shapes gender relations and how Buddhism discourages essentialisms including fixed binary gender identities. Throughout the book appearances are shown to be critically important and the essentialism of gender is maintained through display, public presentations and everyday material practices. Anyone wishing to understand the complexity of Thailand will find this book provides a highly readable and insightful analysis. **Mixed**

**Blessings** Amanda Whiting, Carolyn Evans, 2006-05-01 The essays in this volume explore some of the diverse and contradictory ways that the lives of women in the Asia Pacific region are shaped by two powerful regimes religion and law and by the interactions between them. They show that for women laws customary, colonial, post independence and international and religions indigenous or introduced Buddhism, Christianity, Islam and Confucianism have been a mixed blessing. These diverse legal systems and religious doctrines and institutions have variously denied women authority and the capacity to participate fully in the public organization of social, political and religious life. They have furthermore constructed gender and familial relations in ways that subordinate women. Yet they have also offered promises of women's empowerment and provided rules and procedures, norms, values and interpretations of sacred traditions to deliver those emancipatory promises. Each chapter is devoted to a single state first the history and current framework of the national legal system is introduced then the place of religion in the state is explained and finally by means of precise and detailed case studies or examples each author explores how these sometimes competing, sometimes colluding regimes constructed women and how women interpreted this positioning and sought to resituate themselves. [Anthropologica](#), 2002 [Fire Dancers in Thailand's Tourism Industry](#) Tiffany Rae Pollock, 2024-05-15

*Fire Dancers in Thailand's Tourism Industry* explores the evolution of fire dancing from informal community jam sessions into the iconic tourist oriented performances at beach parties and bars through a close consideration of the role of affect in the lives of fire dancers in the ever changing scene. Rather than pursuing the common notion that tourism industries are exploitative enterprises that oppress workers Tiffany Rae Pollock centers the perspectives of fire artists themselves who view the industry as simultaneously generative and destructive. Dancers reveal how they employ affect to navigate their lives, art and labor in this context showcasing how affect is not only a

force that acts on people but also is used and shaped by social actors toward their own ends Fire Dancers in Thailand s Tourism Industry highlights men as affective laborers investigating how they manage the eroticization of their identities and the intersections of art and labor in tourist economies Exploring moments of performance and everyday life Pollock examines how fire artists reimagine their labor lives and communities in Thailand s tourism industry
