## **Maternal Instincts:**

**Mother Nature** Sarah Blaffer Hrdy, 1999 We are tempted to think of maternal instinct as a quality a woman has or lacks. But the belief that mothers instinctively nurture their offspring one of the West's most cherished ideals and a view widely accepted even in scientific circles has become increasingly controversial. Mother Nature presents a radical new way of understanding how mothers act and why and how this new understanding is changing the way scientists think about how evolution works. Drawing on anthropology, history, literature, developmental psychology, and animal behavior, Sarah Hrdy examines the distinct biological and genetic elements that constitute maternal instinct. She strips away the biases implicit in conventional stereotypes of female nature to give us very different and provocative perspectives on maternal ambivalence, the links between maturity and ambition, mother love and sexual love, and why age-old tensions between the sexes persist and are being played out today in efforts to control women's reproductive choices. Combining decades of research with her own experience as a mother, Hrdy makes clear in this remarkable book what it means from a historical and evolutionary perspective to be a mother and explains how this knowledge has transformed our understanding of human development and behavior.

**Maternal Instincts** Ann Sumner Holmes, Claudia Nelson, 1997-12-13 Maternal Instincts brings together seven new essays exploring conflicting visions of motherhood and sexuality in a period during which both terms were undergoing radical change. Representations of both concepts mutated to accommodate different cultural contexts and individual ideologies. Drawing upon sources including literature, film, medical handbooks, popular science, and legal records, the articles collected here construct a vision of motherhood as alternately idealized, discredited, and fragmented by virtue of its connection with sexualities licit and illicit.

**Maternal Myths: An Exploration of Motherhood and Grandmothers in Global Legends** Ashlee Anderson, Delve into the enchanting world of myths and legends from diverse cultures as we explore the timeless themes of motherhood and grandmothers. From the nurturing figures of Mother Earth to the wise and powerful grandmothers of folklore, this book takes you on a journey through the lens of matriarchal figures in ancient stories. Discover how these maternal figures have been revered, feared, and celebrated throughout history, shaping cultural beliefs and values around the world. Through captivating stories and insightful analysis, Maternal Myths examines the roles of mothers and grandmothers in mythology, folklore, and legend. Explore the universal themes of love, sacrifice, guidance, and resilience as portrayed through the divine mothers of ancient pantheons and the magical grandmothers of fairy tales. Uncover the complexities of motherhood from protective maternal instincts to the transformative power of grandmothers as guardians of wisdom and tradition. From the Greek goddess Demeter grieving for her daughter Persephone to the Chinese goddess Nuwa creating humanity, each myth and legend offers a unique perspective on the sacred bond between mothers and their children. Travel across continents and epochs from the Celtic legends of grandmotherly healers to the African myths of nurturing mother deities, unveiling the rich tapestry of maternal figures in global folklore. Maternal Myths also explores the evolution of

motherhood and grandmothers in contemporary storytelling from modern retellings of ancient myths to the portrayal of maternal figures in literature film and popular culture Gain new insights into the enduring legacy of maternal archetypes and the enduring impact of these characters on our collective imagination With beautiful illustrations and thought provoking analysis *Maternal Myths* offers a fresh and illuminating perspective on the depiction of mothers and grandmothers in myths and legends from around the world Whether you are a mythologist a folklore enthusiast or simply curious about the cultural significance of maternal figures this book is a must read for anyone interested in the enduring power of matriarchal storytelling    [Maternal Instincts and the Matrix of Nation](#) Celena E.
