Global Education Monitoring Report Global Education Monitoring Report Team, South-East Asian Ministers of Education Organization, 2023-12-01 *Global Trends and Policy Impacts in Home Healthcare* Çapar, Haşim, Çakmak, Mehmet Aziz, 2025-08-12 Global trends and policy shifts in home healthcare reshape how care is delivered, financed and regulated globally. Driven by aging populations, rising chronic disease rates and patient preferences for staying at home, the demand for home-based healthcare services has increased. Governments are also introducing innovative policies to ensure quality, cost-effectiveness and equitable access. These developments transform the delivery of skilled nursing, rehabilitation and telehealth services in patients' own homes while redefining broader healthcare systems. Further research is vital to understand how global trends and policy initiatives interact, shaping outcomes for patients, providers and health systems. *Global Trends and Policy Impacts in Home Healthcare* explores the evolving global trends in home healthcare such as technological integration, workforce changes and the growing emphasis on patient-centered care. It examines how policies influence the accessibility, quality and sustainability of home healthcare services across healthcare systems. This book covers topics such as healthcare systems, global business and medical technologies, and is a useful resource for business owners, medical and healthcare professionals, policymakers, academicians, researchers and scientists.

Global Trends in Communication Education and Research Kenneth W. Y. Leung, James Francis Kenny, Paul S. N. Lee, 2006 *Knowledge & Power in the Global Economy* David Gabbard, 2008 The second edition of Knowledge and Power in the Global Economy examines how neoliberal and neoconservative policies are working in tandem to privatize and commercialize public schools It looks at how these policies and the agendas behind them have impacted the internal dynamics of school management teaching and learning as well as how they have transformed the external dynamics of education from a public good or service offered to serve public interests to a private enterprise primarily serving private interests In addition to information critique and analysis multiple perspectives are provided that readers can draw upon to formulate an alternative vision of education as a crucial element of social change along democratic and egalitarian lines The first edition of this volume provided a critical encyclopedic approach to the rhetoric of educational reform as it developed from the 1980s through the 1990s critiquing its vocabulary elaborating the multiplicity of ways that the logic of neoliberalism and the emerging patterns of high stakes testing and accountability were impacting the curriculum and introducing ideas associated with alternative and liberatory educational projects Since its publication in 2000 policy developments such as the No Child Left Behind Act of 2001 in the U S and others in the U K and other parts of the world have nationalized and intensified these patterns deepening the logic and extent of neoliberalism s hold over educational reforms At the same time it is impossible to understand the current crises in education solely in terms of neoliberalism the impact of neoconservatism must also be considered Hence this second edition has a new subtitle The Effects of School Reform in a Neoliberal Neoconservative Age This edition is structured around five themes Political and Social Foundations Anti Educational Foundations The Set Up Anti Educational Foundations The Trap Classroom Consequences and Democracy s Path This volume will particularly interest scholars and professionals across the fields of educational foundations curriculum theory and educational policy and is well suited as a text for courses in these areas
