The consistent attention to AfroLatinas' agency across all the chapters is empowering and attentive to the difficult circumstances of asserting that agency and to the tremendous breadth

of what agency can look like The authors argue for the analytical power of the concept of Intersectionality while considering the hegemonic pressures on AfroLatinidad and the essentializing moves that an intersectional approach enables evading overthrowing and resisting systems of power Through the study of multiple cultural expressions of Blackness such as photography colonial inquisition records dance music fiction non fiction poetic memoir and religious expression and throughout different region of the Americas the chapter contributors of this book consider the relationship that social and historical processes such as sovereignty and colonialism have on narrative and cultural production Rosita Scerbo Concetta Bondi and the contributors acknowledge that racial and gender equity cannot exist without Intersectionality and the inclusion of activist voices broadens this volume s reach and links theory to praxis
