Sawyer, 2006 Previously published as NFPA Fire Prevention Code handbook      NFPA 1 Fire Code Handbook National Fire Protection Association, 2018 The 2018 edition of NFPA 1 Fire Code contains updated requirements from text extracted from other NFPA codes and standards. Because the Code relies so heavily on extracted text from other documents, the Code has the advantage of reflecting the technical knowledge and expertise of the many committees responsible for the codes and standards from which the text is extracted. This Code is intended to provide local and state jurisdictions with an effective fire code. This edition of the handbook is based on the 2018 edition of NFPA 1. The Code consists of 75 chapters, 13 of which are reserved for future topics.
