Pro Gothic Romance:

Figures of the Imagination Roger Hansford, 2017-03-16 This new study of the intersection of romance novels with vocal music records a society on the cusp of modernisation with a printing industry emerging to serve people's growing appetites for entertainment amidst their changing views of religion and the occult. No mere diversion, fiction was integral to musical culture and together both art forms reveal key intellectual currents that circulated in the early nineteenth century British home and were shared by many consumers. Roger Hansford explores relationships between music produced in the early 1800s for domestic consumption and the fictional genre of romance, offering a new view of romanticism in British print culture. He surveys romance novels by Ann Radcliffe, Matthew Lewis, Sir Walter Scott, James Hogg, Edward Bulwer and Charles Kingsley in the period 1790-1850, interrogating the ways that music served to create mood and atmosphere, enlivened social scenes and contributed to plot developments. He explores the connections between musical scenes in romance fiction and the domestic song literature, treating both types of source and their intersection as examples of material culture. Hansford's intersectional reading revolves around a series of imaginative figures including the minstrel, fairies, mermaids, ghosts and witches, and Christians engaged both in virtue and vice, the identities of which remained consistent as influence passed between the art forms. While romance authors quoted song lyrics and included musical descriptions and characters, their novels recorded and modelled the performance of songs by the middle and upper classes, influencing the work of composers and the actions of performers who read romance fiction. Accidental Migrations Edward H. Jacobs, 2000 Rethinking and adapting the theoretical framework and critical methods of Michael Foucault's archaeology of knowledge and arguments about power relations, Edward Jacobs's *Accidental Migrations* offers a new consideration of the nature of the Gothic. **Gothick Origins and Innovations** Allan Lloyd Smith, Victor Sage, 1994 *Gothick Origins and Innovations* brings together nineteen papers from an international group of scholars currently researching in the field of the Gothic, which take a fresh contemporary look at the tradition from its eighteenth-century inception to the twentieth century. Topics and authors include the current usage and definition of the term Gothic, the eighteenth-century rise of the genre, the Sublime, Victorian sensation fiction, and authors such as Coleridge, Mary Shelley, Maturin, LeFanu, Washington Irving, Robert Louis Stevenson, Bram Stoker, John Neale, Jack London, Herman Melville, Dickens, Henry James, and the movie version of his *Turn of the Screw*. *The Innocents*. This wide-ranging set of discussions brings to the subject a new set of perspectives, revising standard accounts of the origins of the genre and extending the historical and cultural contexts into which traditional literary history has tended to confine the subject. Framed by a lively and challenging introduction, the collection brings to bear a full range of contemporary critical instruments, approaches and interdisciplinary languages ranging from the new vocabularies of the socio-cultural to the latest debates in the psychoanalytic field. It provides a stimulating introduction to recent thinking about the Gothic. *English and British Fiction, 1750-1820* Peter Garside, Karen Elisabeth O'Brien, 2015 This series presents a
