when they grow up so it is a legitimate question to ask who is better students who grew up bilingual or students who grew up
monolingual and learned a second language later in life To investigate this matter many questions have to be analyzed The
main question is about the issue of growing up mono or bilingual and becoming a translator In order to analyze this question
it is best to divide the analysis into several sub points The first point addresses the following areas the definition of mono and

bilingual the pedagogical question of how children learn how adults learn and do children really learn languages better and
faster than adults and if no how can adults have the same learning success as children The second regards the translator
What does it mean to be a translator and what abilities are important to be one Is it enough to know languages just as a
