More with More: Investing in the Energy Transition 2025 Francesco Saraceno, 2025-12-08 This outlook offers a timely and insightful exploration of Europe's energy transition a process that lies at the heart of today's environmental economic and political debates It examines the diverse commitments undertaken by European countries as they navigate the challenges of decarbonization and the shift to sustainable energy systems By analyzing both the policy frameworks and the concrete instruments adopted to reach ambitious climate and energy goals the book sheds light on the strategies shaping the continent's future A particular emphasis is placed on the role of public investment highlighting how state action can catalyze innovation support infrastructure and bridge gaps where market forces alone may fall short Through this lens the volume not only evaluates existing practices but also considers the broader implications for governance equity and long term resilience Written with clarity and rigor the outlook will be of interest to policymakers scholars and practitioners seeking to understand the dynamics of Europe's green transition It invites readers to consider the balance between national priorities and collective European objectives offering valuable insights into how commitments translate into action and how public investment can be a decisive lever for change

World Investment Report 2025 United Nations Trade and Development (UNCTAD), 2025-06-19 The digital economy is a significant and rapidly expanding part of the global economy However the benefits of the digital economy are unevenly spread there is a large digital divide It is caused by infrastructure gaps skills gaps and services gaps Bridging these gaps requires significant investment and private sector development Promoting international investment by digital MNEs can support digital development UNCTAD's World Investment Report 2017 first looked at the implications of the digital economy for international investment and investment policy Since that report the relevance of digital economy foreign direct investment FDI has increased significantly Digital technologies have continued to advance Investment policies connected to digitalization have also moved on And importantly the United Nations adopted a new Digital Compact in 2024 with the objective to help developing countries bridge the digital divide World Investment Report 2025 aims to explore the latest trends of international investment in digital economy analyze the drivers and determinants assess their impact on sustainable development as well as analyze how investment policy can support digital economy and provide relevant policy recommendations

Global Economic Prospects, June 2025 World Bank, 2025-06-10 The global economy is facing another substantial headwind emanating largely from an increase in trade tensions and heightened global policy uncertainty For emerging market and developing economies EMDEs the ability to boost job creation and reduce extreme poverty has declined Key downside risks include a further escalation of trade barriers and continued policy uncertainty These challenges are exacerbated by subdued foreign direct investment into EMDEs Global cooperation is needed to restore a more stable international trade environment and scale up support for vulnerable countries grappling with conflict debt burdens and climate change Domestic policy action is also critical to contain inflation risks and

strengthen fiscal resilience To accelerate job creation and long term growth structural reforms must focus on raising institutional quality attracting private investment and strengthening human capital and labor markets Countries in fragile and conflict situations face daunting development challenges that will require tailored domestic policy reforms and well coordinated multilateral support
