**All-in On AI** Thomas H. Davenport, Nitin Mittal, 2023-01-24. A Wall Street Journal bestseller. A Publisher's Weekly bestseller. A fascinating look at the trailblazing companies using artificial intelligence to create new competitive advantage. From the author of the business classic *Competing on Analytics* and the head of Deloitte's US AI practice. Though most organizations are placing modest bets on artificial intelligence, there is a world class group of companies that are going all in on the technology and radically transforming their products, processes, strategies, customer relationships, and cultures. Though these organizations represent less than 1 percent of large companies, they are all high performers in their industries. They have better business models, make better decisions, have better relationships with their customers, offer better products and services, and command higher prices. Written by bestselling author Tom Davenport and Deloitte's Nitin Mittal, *All In on AI* looks at artificial intelligence at its cutting edge from the viewpoint of established companies like Anthem, Ping An, Airbus, and Capital One. Filled with insights, strategies, and best practices, *All In on AI* also provides leaders and their teams with the information they need to help their own companies take AI to the next level. If you're curious about the next phase in the implementation of artificial intelligence within companies or if you're looking to adopt this powerful technology in a more robust way yourself, *All In on AI* will give you a rare inside look at what the leading adopters are doing while providing you with the tools to put AI at the core of everything you do.
