First introduced into the psychology world by Carl Jung, it is simply self knowledge and processing emotions without self judgment or criticism to reintegrate them for healing and self empowerment. Your Shadow is the unhealed, unintegrated, hidden, suppressed or denied parts of yourself. The dark aspects of your personality that were rejected to the point of being locked away into the subconscious or unconscious mind. Because you're unaware of them, they operate behind the scenes chaotically and destructively as negative emotions, actions which are unknowingly projected onto others.
