Martin Mobberley, 2015-03-20 The result of an exhaustive study of Sir Patrick Moore's observations of the Moon and planets for more than 60 years this book is a fantastic companion to the extremely popular *It Came From Outer Space Wearing an RAF Blazer* written by the same author Moore recorded his telescopic observations in his logbooks which are reproduced and described here in detail along with his sketches and notes In this light the author discusses the factors that caused Moore to switch from lunar observing to planetary and variable star observing He has also included personal recollections and humorous anecdotes from Moore's friends and acquaintances as well as a look at his best loved books Further chapters describe Moore's foreign travels and correspondence with those back home Lastly the author has not neglected a few of Moore's most memorable television and radio appearances which are examined along with a close up of what it was like to visit Moore's beloved home of Farthings in Selsey Essentially this is a book written by popular demand from the readers of the author's original biography who craved more of Moore Aerospace Bibliography, 1972 **NASA EP**. Astronomy Francis Andrew, 2023-01-30 Is this a book that you would read from cover to cover The simple answer is no It is a book that the reader would dip into every now and again to get the flavour of one of Sir Patrick's works There is an appraisal of each of Sir Patrick's works contained within it This book constitutes the first of two or perhaps three volumes of appraisals of Sir Patrick's books Why have I found it necessary to spread out his works across two or three volumes For two reasons basically firstly Sir Patrick wrote around 200 books throughout his long life secondly is the issue of book availability all of Sir Patrick's books are now out of print and the earlier ones mostly are only sporadically available from antiquarian booksellers It is a great honour for me to have this first volume ready for publication for the centenary year of Sir Patrick's birth in 2023
