you face challenges in life Astrology is an ancient art and science that has guided humanity for centuries It provides a deeper understanding of ourselves and the world Our goal is to empower you with knowledge helping you make informed decisions and avail yourself of the opportunities in 2026 Events in a person s life are indeed influenced by the positions of planets in their birth chart The timing of these events is determined by the planetary periods Dasha and Antar Dasha and the planetary transits indicate when the results of those events will manifest If an event is not promised in the birth chart and is not aligned with the current planetary periods the transits might not have a significant impact The concept of Desh place Kaal time and Patar individual is critically important when determining the outcomes of astrological influences Results can vary based on geographical location time and the individual s unique circumstances In our Zodiac there are twelve signs and each sign represents about 1/12th of the world s population However it is impractical to think that the predictions based on these signs will apply perfectly to everyone Destiny is a complex interplay of cosmic influences personal choices and life circumstances It is a dynamic interaction that can guide but not completely dictate the course of one s life While the stars influence us remember it is our choices free will that shape our destiny Keep in mind that the future is not fixed and our decisions create our reality As a disclaimer I want to say that the future is unpredictable and no one can guarantee an event will happen or how intense it will be We astrologers try to decipher with the best of our capabilities and intentions so that we can guide mankind to prepare themselves for any eventuality These predictions are general and offer some caution warnings and indications based on the movements of major planets like Saturn Jupiter Rahu and Ketu Individual predictions depend on the specific positions of planets at the time of a person s birth We recommend consulting an astrologer for better clarity You should consider this a general guide to prepare before making major decisions While astrology can provide insights and guidance it is important to remember that there might not be remedies for certain fixed or incurable karmic situations as these are aspects of life that individuals may need to face Everyone has to burn his karma to progress further in their metaphysical world Let us welcome the transformative energies of 2026 and make it a year of growth joy and self discovery May this book be your guiding light leading you to your dreams We wish you a year filled with cosmic blessings and endless possibilities
