Musings is a collection of poetical verse where honest feelings are unveiled as disclosed from the imagination of the author  
Inspiring works are offered inviting open mindedness as repetitive messages flow exposing truth of life where not all is pure  
and wonderful Very often rhythmic words combine to form haunting images revealing belief that everything is mystically  
possible yet sometimes horribly insufferable Much of this poetry reflects ideals inciting fate as reality on a journey through  
designated vistas Many show that moments of fear obliterate hope telling we must offer heart felt prayers to GOD asking to  
be shown a new path to our destined eternity Throughout this book faith is revealed as uppermost always testifying to our  
Creator s power over HIS scientific domain Existence and illusion intertwined invariably by love or loss are recurring themes  
explored intuitively in these writings Two of Judith s newest poems Castles of Sand and Crystal Beaches are examples of the  
author s passionate cries voicing inequality for mankind with greed totally violating harmonious guardianship of our Earth  
They were penned mid 2010 after the devastation caused to the world by corrupt governments big banks and big  
corporations particularly BP was realized Abstract Musings correlates social and moral conscience deigned through thought  
and vision by a questing soul displayed lyrically within the pages of this volume    **Frank Leslie's Pleasant Hours** ,1883

Rogers,2018-08-09 Frankenstein and Its Classics is the first collection of scholarship dedicated to how Frankenstein and  
works inspired by it draw on ancient Greek and Roman literature history philosophy and myth Presenting twelve new essays  
intended for students scholars and other readers of Mary Shelley s novel the volume explores classical receptions in some of  
Frankenstein s most important scenes sources and adaptations Not limited to literature the chapters discuss a wide range of  
modern materials including recent films like Alex Garland s Ex Machina and comics like Matt Fraction s and Christian Ward s  
Ody C in relation to ancient works including Hesiod s Theogony Aeschylus s Prometheus Bound Ovid s Metamorphoses and

Apuleius's *The Golden Ass* All together these studies show how *Frankenstein*, a foundational work of science fiction brings ancient thought to bear on some of today's most pressing issues from bioengineering and the creation of artificial intelligence to the struggles of marginalized communities and political revolution. This addition to the comparative study of classics and science fiction reveals deep similarities between ancient and modern ways of imagining the world and emphasizes the prescience and ongoing importance of Mary Shelley's immortal novel. As *Frankenstein* turns 200, its complex engagement with classical traditions is more significant than ever.
