Corrigan,Ann Higgins-D'Alessandro,2012 Summary This handbook introduces prosocial education as an umbrella term denoting the various ways in which all players in education impact student development *Philosophical Issues In Education* Cornel M. Hamm,2003-09-02 First published in 1989 Routledge is an imprint of Taylor Francis an informa company **Quandaries and Virtues** Edmund L. Pincoffs,1986 **Sustainable Human Development in the Twenty-First Century - Volume I** Ismail Sirageldin,2008-12-31 Sustainable Human Development in the Twenty First Century is a component of Encyclopedia of Human Resources Policy Development and Management in the global Encyclopedia of Life Support Systems EOLSS which is an integrated compendium of twenty Encyclopedias The volume of Human Development examines the state and nature of human development and identifies factors that determine its promotion for the twenty first century A general goal since the ultimate goal for human development is to enhance the quality of human life However the concept quality of human life is not well defined It is determined by a set of interrelated factors that cut across many disciplines with varied perspectives and paradigms These include the prevailing culture health status economic performance technological development political and social conditions the building of human capacity and capabilities and institutional development on the local and global levels For example in an environment characterized by a better quality of human life it is expected that people will be able to lead long and productive lives They are also expected to enjoy good health have access to knowledge and educational opportunities and be treated by all with respect in a socially equitable and dignified manner In the sphere of political economy they are expected to have the opportunity to participate in governance decisions that affect their lives and the community in which they live and to have the potential to earn sufficient income to supply themselves with adequate nutrition shelter and other material and aesthetic needs Furthermore people are expected to maintain a sustainable environment and equitable social contracts across space and generations especially in the context of the evolving global governance The volume of Sustainable Human Development in the Twenty First Century is divided into five topics which are then expanded into multiple subtopics each as a chapter presented in two volumes The first is Major issues in Human Development and provides an over view of the Topic with emphasis on the sociological foundation

of human development The second Topic Diversity and Historical Processes reviews the historical and technological processes which have led to the present state of human diversity and differentiation The third Topic Causes of Global Change focuses on whether it is possible in the present global environment to enlarge people's capabilities so that economic progress may be translated into a multidimensional human happiness The fourth Topic Consequences of Global Change examines global change not in the narrow sense of short term economic change but rather as historical waves of long term development The fifth Topic on Planning Strategies reviews current practice and projects challenges in the next century These two volumes are aimed at the following five major target audiences University and College Students Educators Professional Practitioners Research Personnel and Policy Analysts Managers and Decision Makers and NGOs **Bulletin** University of Wisconsin, 1909 **Bringing in a New Era in Character Education** William Damon, 2013-09-01 The educational system in the United States has ended its failed experiment with separating the intellectual from the moral Schools from K 12 to colleges and universities are increasingly paying attention to students values and character But how can we ensure this new era in character education makes the right kind of difference to young people What obstacles in our current educational system must we overcome and what new opportunities can we create This anthology offers unique perspectives on what is needed to make character education an effective lasting part of our educational agenda Each chapter points out the directions that character education must take today and offers strategies essential for progress The expert contributors reveal why relativism has threatened the moral development of young people in our time and how we can pass core values down to new generations of students in ways that will elevate their conduct and their life goals And they show the critical importance of reestablishing student morality and character as targets of higher education's central mission Perhaps most important they clarify the necessity of authority in any moral education endeavor and show how it is a powerful force for developing personal freedom and building character *The Public School Journal*, 1888 *From Education to Life* Santiago Sia, 2019-01-03 This book contributes to ongoing discussions on the important role of education and on the challenging tasks facing educators today Drawing on their long vast and varied experience as educators administrators and scholars the authors deal specifically with certain fundamental issues with a view to engaging those involved in education in an examination of what underlies educational theory and practice The book shows that education is not simply about attending school academic institutions or any other establishment of learning or training but rather is a process that looks further than the time spent learning lessons attending lectures doing research acquiring knowledge honing skills or developing competence important and crucial as these activities are to human development Its greatest challenge and purpose come instead from life itself For this reason this book is about education as preparing us to live a more fulfilled life and as a process that lasts a lifetime All those involved in education at all stages and in various capacities will find this book both beneficial and engaging *Religious Education*, 1910 Available on microfilm from University Microfilms **School**
