

# What is Morality dependent upon the Moral Law?

- There are four expressions of moral law:
  1. **Divine Law** – the plan of God's wisdom to direct human activity to good.
  2. **Natural Law** – written in your heart that helps you know what is good and what is evil.
  3. **Revealed Law** – written in Old and New Testaments
  4. **Civil and Church Law** – established by nations and the Church to promote the common good.

## Moral Law:

**Moral Law and Civil Law, Parts of the Same Thing** Eli Foster Ritter,1910      **Moral Law: Groundwork of the Metaphysics of Morals** Immanuel Kant,2013-03-04 First published in 2012 Kant's Groundwork of the Metaphysics of Morals is one of the small books which are truly great it has exercised on human thought an influence almost ludicrously disproportionate to its size In moral philosophy it ranks with the Republic of Plato and the Ethics of Aristotle and perhaps partly no doubt through the spread of Christian ideals and through the long experience of the human race during the last two thousand years it shows in some respects a deeper insight even than these Its main topic the supreme principle of morality is of the utmost importance to all who are not indifferent to the struggle of good against evil Written as it was towards the end of the eighteenth century it is couched in terms other than those that would be used today but its message was never more needed than it is at present when a somewhat arid empiricism is the prevailing fashion in philosophy      *The Natural Moral Law* Owen Anderson,2012-04-30 This book studies beliefs about the good and how it is known and how such beliefs shape claims about the moral law      **The Moral Law** Immanuel Kant,2005 A translation of Kant's classic statement of his moral philosophy with analysis and notes Kant ranks with Plato and Aristotle as one of the most important philosophers of all time

**God and Moral Law** Mark C. Murphy,2011-11-17 Does God's existence make a difference to how we explain morality Mark C Murphy critiques the two dominant theistic accounts of morality natural law theory and divine command theory and presents a novel third view He argues that we can value natural facts about humans and their good while keeping God at the centre of our moral explanations The characteristic methodology of theistic ethics is to proceed by asking whether there are features of moral norms that can be adequately explained only if we hold that such norms have some sort of theistic foundation But this methodology fruitful as it has been is one sided God and Moral Law proceeds not from the side of the moral norms so to speak but from the God side of things what sort of explanatory relationship should we expect between God and moral norms given the existence of the God of orthodox theism Mark C Murphy asks whether the conception of God in orthodox theism as an absolutely perfect being militates in favour of a particular view of the explanation of morality by appeal to theistic facts He puts this methodology to work and shows that surprisingly natural law theory and divine command theory fail to offer the sort of explanation of morality that we would expect given the existence of the God of orthodox theism Drawing on the discussion of a structurally similar problem that of the relationship between God and the laws of nature Murphy articulates his new account of the relationship between God and morality one in which facts about God and facts about nature cooperate in the explanation of moral law      *God and Moral Law* Mark C. Murphy,2016-03-03 Does God's existence make a difference to how we explain morality Mark C Murphy critiques the two dominant theistic accounts of morality natural law theory and divine command theory and presents a novel third view He argues that we can value natural facts about humans and their good while keeping God at the centre of our moral explanations The characteristic methodology

of theistic ethics is to proceed by asking whether there are features of moral norms that can be adequately explained only if we hold that such norms have some sort of theistic foundation. But this methodology, fruitful as it has been, is one-sided. God and Moral Law proceed not from the side of the moral norms so as to speak but from the God side of things. What sort of explanatory relationship should we expect between God and moral norms given the existence of the God of orthodox theism? Mark C. Murphy asks whether the conception of God in orthodox theism as an absolutely perfect being militates in favor of a particular view of the explanation of morality by appeal to theistic facts. He puts this methodology to work and shows that surprisingly natural law theory and divine command theory fail to offer the sort of explanation of morality that we would expect given the existence of the God of orthodox theism. Drawing on the discussion of a structurally similar problem that of the relationship between God and the laws of nature, Murphy articulates his new account of the relationship between God and morality, one in which facts about God and facts about nature cooperate in the explanation of moral law.

Elements of Morals Paul Janet, 1884    Elements of Morals Paul Janet, 1884    **The Moral Law** Ernest Frederick Kevan, 1963

Formulas of the Moral Law Allen Wood, 2017-10-12 This Element defends a reading of Kant's formulas of the moral law in *Groundwork of the Metaphysics of Morals*. It disputes a long tradition concerning what the first formula, Universal Law, Law of Nature, attempts to do. The Element also expounds the Formulas of Humanity, Autonomy, and the Realm of Ends, arguing that it is only the Formula of Humanity from which Kant derives general duties and that it is only the third formula, Autonomy, Realm of Ends, that represents a complete and definitive statement of the moral principle as Kant derives it in the *Groundwork*. The Element also disputes the claim that the various formulas are equivalent, arguing that this claim is either false or else nonsensical because it is grounded on a false premise about what Kant thinks a moral principle is for.

**On the Moral Law & Judicial Law** Francis Roberts, 2025-07-16 Roberts wrote the puritan magnum opus on Covenant Theology. This section from that work gives a window into the majority puritan view that the Moral Law in Moses the Ten Commandments continues to oblige in all ages while the Judicial Law expired with the state of Israel; only the general equity therein continuing to oblige. Roberts enumerates five very helpful distinctions that demonstrate the Biblical priority of the Moral Law over the Judicial Law in this respect. We have also published a shorter article by Roberts, *On the Moral Law*, the Law of Nature.

*The Natural Moral Law* Owen J. Anderson, 2012 The Natural Moral Law argues that the good can be known and that therefore the moral law, which serves as a basis for human choice, can be understood. Proceeding historically through ancient, modern, and postmodern thinkers, Owen Anderson studies beliefs about the good and how it is known, and how such beliefs shape claims about the moral law. The focal challenge is whether the skepticism of postmodern thinkers can be answered in a way that preserves knowledge claims about the good. Considering the failures of modern thinkers to correctly articulate reason and the good, and how postmodern thinkers are responding to these failures, Anderson argues that there are identifiable patterns of thinking about what is good, some of which lead to false dichotomies. The book concludes with a

consideration of how a moral law might look if the good is correctly identified      *The Moral Law* Ernest Kevan,2001-09
