## **Moral Writings:**

*The Moral Writings of John Dewey* James Gouinlock, 2009-12-02 John Dewey 1859 1952 renowned educator and philosopher has been called the national philosopher of American civilization James Gouinlock's superb collection of Dewey's writings presents the many aspects of Dewey's ethical thought With this collection students and scholars alike will more readily acknowledge Dewey's substantial contribution to our understanding of the moral life The selections are grouped according to topic including The Nature of Moral Philosophy Man Nature and Society Value and Nature Human Nature and Value Value and Intelligence Moral Language and Social Intelligence and Democracy *Moral Writings* H. A.

Prichard, 2002-08-01 to follow *Moral Writings* Harold Arthur Prichard, 2002 This is a collection of the ethical work of the great Oxford moral philosopher H A Prichard The essays previously included in the posthumous collection *Moral Obligation* are augmented by a selection of previously unpublished writings *The Moral Writings of John Dewey* John Dewey, 1976

*Critique of Practical Reason, and Other Writings in Moral Philosophy* Immanuel Kant, 1976 *Kant's Ethical Thought* Allen W. Wood, 1999-08-28 A major new study of Kant's ethics **Moral Writings** Stephen Macko, 2013-10-02 *Moral Writings* by Stephen John Macko B A is a book related to 21st Century ethics The writings of Stephen John Macko B A are based on 21 years of psychology as a patient that had graduated with a Bachelor of Arts in Music and a year of Graduate Studies in Music and Medicine while trying to relate to professionals in fields of Science Psychology and Theology The Poetry of Longfellow on Civil Rights and goodness helped the author to write these morals **British Ethical Theorists from Sidgwick to Ewing** Thomas Hurka, 2014-11-06 Thomas Hurka presents the first full historical study of an important strand in the development of modern moral philosophy His subject is a series of British ethical theorists from the late nineteenth century to the mid twentieth century who shared key assumptions that made them a unified and distinctive school The best known of them are Henry Sidgwick G E Moore and W D Ross others include Hastings Rashdall H A Prichard C D Broad and A C Ewing They disagreed on some important topics especially in normative ethics Thus some were consequentialists and others deontologists Sidgwick thought only pleasure is good while others emphasized perfectionist goods such as knowledge aesthetic appreciation and virtue But all were non naturalists and intuitionists in metaethics holding that moral judgements can be objectively true have a distinctive subject matter and are known by direct insight They also had similar views about how ethical theory should proceed and what are relevant arguments in it their disagreements therefore took place on common ground Hurka recovers the history of this under appreciated group by showing what its members thought how they influenced each other and how their ideas changed through time He also identifies the shared assumptions that made their school unified and distinctive and assesses their contributions critically both when they debated each other and when they agreed One of his themes is that that their general approach to ethics was more fruitful philosophically than many better known ones of both earlier and later times *The Collected Writings of Thomas De Quincey* Thomas De Quincey, 1890

**Moral Philosophy** Andrew Preston Peabody, 1886      Essays, Ethical and Political Thomas Henry Huxley, 1904      *The Principles of Moral Science* Walter McDonald, 1903      **Essays in Religion and Morality** William James, 1982 Essays in Religion and Morality brings together a dozen papers of varying length to these two themes so crucial to the life and thought of William James. Reflections on the two subjects permeate first James's presentation of his father's Literary Remains second his writings on human immortality and the relation between reason and faith third his two memorial pieces one on Robert Gould Shaw and the other on Emerson fourth his consideration of the energies and powers of human life and last his writings on the possibilities of peace especially as found in his famous essay The Moral Equivalent of War. These speeches and essays were written over a period of twenty four years. The fact that James did not collect and publish them himself in a single volume does not reflect on their intrinsic worth or on their importance in James's philosophical work since they include some of the best known and most influential of his writings. All the essays throughout their varied subject matter are consistently and characteristically Jamesian in the freshness of their attack on the problems and failings of humankind and in their steady faith in human powers.      **The Philosophical Bases of Asceticism in the Platonic Writings and in Pre-Platonic Tradition ...** Irl Goldwin Whitchurch, 1923      *Ethical Writings of Cicero: De Officiis, De Senectute, De Amicitia, and Scipio's Dream* Marcus Tullius Cicero, 1887      **Thomas Carlyle, the story of his life and writings [by R. and M. Cochrane].** Robert Cochrane (miscellaneous writer.), 1896      book I. The moral criterion Hastings Rashdall, 1907      **Early Responses to Hume's Moral, Literary and Political Writings: Hume's moral philosophy** James Fieser, 1999  
*Aristotle's Ethics* Aristotle, 2014-08-24 Aristotle's moral philosophy is a pillar of Western ethical thought. It bequeathed to the world an emphasis on virtues and vices, happiness as well-being or a life well-lived and rationally motivated action as a mean between extremes. Its influence was felt well beyond antiquity into the Middle Ages, particularly through the writings of St. Thomas Aquinas. In the past century, with the rise of virtue theory in moral philosophy, Aristotle's ethics has been revived as a source of insight and interest. While most attention has traditionally focused on Aristotle's famous *Nicomachean Ethics*, there are several other works written by or attributed to Aristotle that illuminate his ethics: the *Eudemian Ethics*, the *Magna Moralia*, and *Virtues and Vices*. This book brings together all four of these important texts in thoroughly revised versions of the translations found in the authoritative complete works, universally recognized as the standard English edition. Edited and introduced by two of the world's leading scholars of ancient philosophy, this is an essential volume for anyone interested in the ethical thought of one of the most important philosophers in the Western tradition.      **Catalogue of Books in the South End Branch Library of the Boston Public Library** Boston Public Library.
