Morality And Universality:

Morality and Universality N.T. Potter, Mark Timmons, 2011-12-13 In the past 25 years or so the issue of ethical universalizability has figured prominently in theoretical as well as practical ethics. The term universalizability used in connection with ethical considerations was apparently first introduced in the mid 1950s by R M Hare to refer to what he characterized as a logical thesis about certain sorts of evaluative sentences. Hare 1955. The term has since been used to cover a broad variety of ethical considerations including those associated with the ideas of impartiality, consistency, justice, equality and reversibility as well as those raised in the familiar questions: What if everyone did that? and How would you like it if someone did that to you? But this recent efflorescence of the use of the term universalizability is something that has deep historical roots and has been central in various forms to the thinking about morality of some of the greatest and most influential philosophers in the western tradition. While the term is relatively new the ideas it is now used to express have a long history. Most of these ideas and questions have been or can be formulated into a principle to be discussed, criticized or defended. As we discuss these ideas below this principle will be stated on a separate numbered line. The concepts of justice and equality were closely linked in Greek thought. These connections between these two concepts are apparent even in two authors who were hostile to the connection: Plato and Aristotle.

Moral Universalism and Pluralism Melissa S. Williams, 2008-10-01 Moral universalism or the idea that some system of ethics applies to all people regardless of race, color, nationality, religion or culture must have a plurality over which to range a plurality of diverse persons, nations, jurisdictions or localities over which morality asserts a universal authority. The contributors to Moral Universalism and Pluralism, the latest volume in the NOMOS series, investigate the idea that far from denying the existence of such pluralities, moral universalism presupposes it. At the same time the search for universally valid principles of morality is deeply challenged by diversity. The fact of pluralism presses us to explore how universalist principles interact with ethical, political and social particularisms. These important essays refuse the answer that particularisms should simply be made to conform to universal principles as if morality were a mold into which the diverse matter of human society and culture could be pressed. Rather the authors bring philosophical, legal and political perspectives to bear on the core questions: Which forms of pluralism are conceptually compatible with moral universalism and which ones can be accommodated in a politically stable way? Can pluralism generate innovations in understandings of moral duty? How is convergence on the validity of legal and moral authority possible in circumstances of pluralism? As the contributors to the book demonstrate in a wide variety of ways these normative, conceptual and political questions deeply intertwine. Contributors: Kenneth Baynes, William A. Galston, Barbara Herman, F. M. Kamm, Benedict Kingsbury, Frank I. Michelman, William E. Scheuer, Gopal Sreenivasan, Daniel Weinstock and Robin West.

Kant on Sublimity and Morality Joshua W. Rayman, 2012-07-15 The sublime is the experience of what is great in power, size or number. Historically from ancient times to the present this aesthetic experience has always been associated with

morality but in order to exclude evil fascistic or terroristic uses of the sublime we require a systematic justification of the claim that there are internal moral constraints on the sublime The author argues that Immanuel Kant alone provides this account binding sublimity to moral ideas the exhibition of freedom the production of respect and violence toward inclinations

The Philosophical and Theological Foundations of Ethics Peter Byrne,2016-07-27 This study is an introduction to the problems of moral philosophy designed particularly for students of theology and religious studies It offers an account of the nature and subject matter of moral reasoning and of the major types of moral theory current in contemporary moral philosophy The account aims to bring out the major issues in moral theory to present a clear non technical articulation of the structure of moral knowledge and to explore the relation between religious belief and morality *Moral Universality in Lawrence Kohlberg's Theory of Moral Development* Xiaodan Huang,1993

Moral Relativism and Chinese Philosophy Yang Xiao,Yong Huang,2014-02-03 Original influential and often controversial ethicist David Wong defends forms of moral relativism His 1984 Moral Relativity was a study of this concept and his 2006 Natural Moralities presented a new and sophisticated account of it Wong s vision is of a pluralistic moral relativism he does not defend all forms of relativism but evaluates what moralities may be true His singular philosophy reflects his deep knowledge of Confucian and Daoist thought In this book moral philosophers and scholars of Chinese thought debate ideas central to Wong s work and Wong responds to them The discussion ranges widely including exploring Wong s thought on naturalism criteria for moralities the principle of charity moral authority and the concept of community and looking at his readings of Xunzi and Zhuangzi Wong s nuanced and forceful responses clarify and develop further arguments in his work These engaging and critical exchanges between Wong and his critics illuminate not only Wong s thought but also contemporary ethical theory and Chinese philosophy *An Outline of the Idealistic Construction of Experience* Sir James Black Baillie,1906 book I. The moral criterion Hastings Rashdall,1907 The moral criterion Hastings Rashdall,1907 The Ethics of William Wollaston Clifford Griffith

Thompson,1922 **Introduction to the Science of Ethics** Theodore De Laguna,1914 *New Dimensions of Confucian and Neo-Confucian Philosophy* Chung-ying Cheng,1991-03-26 This is the first book to thoroughly explore Confucian and Neo Confucian metaphysics and ethics building upon the creativity and temporality of human existence and human nature as well as their extension into human culture Fundamental essays deal cogently with the relationship between Chinese language and Chinese philosophy offering general categories which shape the matrix of ideas woven in Chinese philosophy from its very beginnings Along with more general characterizations there are themes placing Confucian thinkers in touch with modern communication theories perceptions of individuals religious themes and scientific worldviews Conceptual and comparative essays probe the frontiers of Chinese philosophy in its contemporary Confucian revival *Evolutionism and Idealism in Ethics* Frederick Cohn,1909 **Moral Philosophy and Moral Life** Anne-Marie Søndergaard Christensen,2020-12-03 Moral Philosophy and Moral Life addresses the questions of the role of moral philosophy and its relationship to our ordinary moral

lives Christensen's argument is motivated by the belief that one of the most important obstacles for doing work in moral philosophy today is the lack of a coherent answer to the question of the role and status of moral philosophy and the theories it develops. The first part untangles various criticisms of the dominant view of moral theories that challenge the explanatory, foundational, authoritative and action guiding role of these theories. It also offers an alternative understanding of moral theories as descriptions of moral grammar. The second part investigates the nature of the particularities relevant for an understanding of moral life both particularities tied to the moral subject her character her commitments and her moral position and particularities tied to the context of the subject her moral community and her language. The final part marks a return to moral philosophy and addresses the wider question of what the revised conception of moral theories and the affirmation of the value of the particular mean for moral philosophy by developing a descriptive, pluralistic and elucidatory conception of moral philosophy. While the scope of the argument is wide the aims are more moderate to present an understanding of descriptive moral philosophy aimed at spurring debate about the status and role of moral philosophy in relation to our moral lives. Is a Universal Morality Possible Ferenc Horkay Hörcher, Béla Mester, Zoltán Turgonyi, 2015

Nature of the Self S. K. Leung, 2000 Proposes a radical theory on the existential confirmation and understanding of the Self. **The Practical Philosophy of Friedrich Eduard Beneke** Reginald Bancroft Cooke, 1915. **History of Christian Ethics** Christoph Ernst Lüthardt, 1889. *The Vocabulary of Philosophy, Mental, Moral, and Metaphysical* William Fleming, 1876. **A Philosophical Study of Christian Ethics** George Freeland Barbour, 1911
