**The Invention of Good and Evil** Hanno Sauer,2024-09-17 What makes us moral beings How do we decide what is good and what is evil In the vein of Sapiens comes a grand history of our universal moral values at the moment of their greatest crisis How did we learn to distinguish good from evil Have we always been capable of doing so And will we still be in the world to come In this breathtaking book ethics expert Hanno Sauer offers a great universal history of morality in the era of its darkest crisis He finds that morality existed long before there was talk of God religion or philosophy Its history is first of all the fruit of a process of natural selection going back to the dawn of humanity in the forests of East Africa which five million years ago thinned out owing to climate change Among the early humans that came down from the trees there were also our ancestors who adapted to open spaces by organizing themselves into large groups Under the pressure of environmental factors morality emerges as the foundation for cooperation a quality that is as precarious as it is essential to the survival of the species Moving between paleontology and genetics psychology and cognitive science philosophy and evolutionism Sauer traces a genealogy of morality and along the journey marks the main moral transformations in the history of humanity In the end he concludes that millions of years of stratifications has led to the moral crisis of our present and the only way to build a future together is to retrace our history

World History and National Identity in China Xin Fan,2021-02-25 Nationalism is pervasive in China today Yet

nationalism is not entrenched in China's intellectual tradition. Over the course of the twentieth century the combined forces of cultural, social and political transformations nourished its development but resistance to it has persisted. Xin Fan examines the ways in which historians working on the world beyond China from within China have attempted to construct narratives that challenge nationalist readings of the Chinese past and the influence that these historians have had on the formation of Chinese identity. He traces the ways in which generations of historians from the late Qing through the Republican period through the Mao period to the relative moment of opening in the 1980s have attempted to break cross cultural boundaries in writing an alternative to the national narrative. [Paul Ricoeur and Contemporary Moral Thought](#) William Schweiker, John Wall, David Hall, 2020-10-28. This book explores and proposes new avenues for contemporary moral thought. It defines and assesses the significance of the writings of French philosopher Paul Ricoeur for ethics. The book also explores what matters most to persons and how best to sustain just communities. [\*\*Hegel's Theory of Responsibility\*\*](#) Mark Alznauer, 2015-02-19.

A crucial aspect of Hegel's practical philosophy is his theory of responsibility. This theory is both original and radical in its emphasis on the role and importance of social and historical conditions as a context for our actions. But even those who agree that there is something valuable in Hegel's emphasis on sociality are not in agreement about what that something is or about how Hegel argues for it. Mark Alznauer offers the first book length account of the structure of the theory and its place within Hegel's thought as a whole. The reader is carefully walked through the psychological, social and historical aspects of responsibility in Hegel's texts. The book demonstrates that attention to the concept of responsibility reveals the true nature of Hegel's controversial claims about the inherent sociality of human action. [\*\*Four Phases of Morals\*\*](#) John Stuart Blackie, 2023-07-18. This book is a thought provoking analysis of the four phases of morals in human history. Socrates, Aristotle, Christianity and Utilitarianism. John Stuart Blackie provides a detailed and nuanced view of each era's moral systems and how they relate to each other. This is a must read for anyone interested in ethics, philosophy and morality. Benjamin J. Bruxvoort Lipscomb, James Krueger, 2010. Main description. This volume re-evaluates these minimizing approaches, exploring Kantian positions on such topics as sin, the relation between God and ethics, the metaphysics of human freedom and the possibility of knowledge of God. This volume is the first to examine all
