## **Moravian Architecture And Town Planning:**

**Moravian Architecture and Town Planning** William J. Murtagh, 1997-01-29 The industrial city of Bethlehem Pennsylvania was originally settled in colonial times by Moravians from southeastern Germany. These religious utopians were noted for urban planning. In this large format richly illustrated volume historian William Murtagh compares more than 20 Bethlehem landmarks with other Moravian communities for a fascinating glimpse into a part of America's past.

**Moravian Architecture and City Planning** William John Murtagh, 1963 **The Oxford Handbook of Early Evangelicalism**

Jonathan Yeager, 2022 Contexts Churches and movements The culture of evangelicalism Personalities *The Colonial Towns of Piedmont North Carolina* Christopher E. Hendricks, 2024-11-15 How do towns come into existence? What circumstances determine whether they succeed or fail? In *The Colonial Towns of Piedmont North Carolina* author Christopher E. Hendricks looks at one region in eighteenth century America to explore answers to these questions. He examines the establishment and development of eleven towns in the Piedmont classifying them into three types: county towns formed by the establishment of government institutions such as a courthouse; trade towns formed around commercial opportunities; and religious towns such as the three towns developed in Wachovia a region where Moravians settled. He uses these classifications to tell the stories of how these towns came into being and how in their development they struggled against economic, cultural, and political challenges. Ultimately *The Colonial Towns of Piedmont North Carolina* deepens our understanding of the influence that American towns had on the settlement of the backcountry. Hendricks tells the poignant story of the Moravians' struggle to maintain their neutral stance during the Revolutionary War, surviving exploitation and brutality from both the Continental Army and the British. The author also integrates the history of Native Americans into this mix of competing forces and shows how they were challenged by and resisted the newcomers. He emphasizes the role of individual initiative as well as the impetus of government specifically courthouses in establishing towns. By utilizing a variety of rarely examined primary sources, methodological approaches ranging from geographic theory to material culture studies and a deep examination of local history, Hendricks provides a comprehensive analysis of the emergence of these towns on the frontier.

**The Backcountry Towns of Colonial Virginia** Christopher E. Hendricks, 2006 Hendricks writes on how towns in backcountry Virginia came about from the designs and ambitions of entrepreneurial individuals. They did not just spring up randomly in some pleasing meadow or on some riverbank; they happened upon by a frontiersman for example or a group which had struck out into the wilderness. The people who put these plans for towns into action were motivated by a variety of economic, social, or philanthropic factors and sometimes purely by circumstance and opportunity. These entrepreneurial like individuals were not a part of any organized movement. But their activities in toto played a large part in opening up the western parts of Virginia and setting a pattern for westward expansion. Among the towns Hendricks studies in larger topographical areas such as the Piedmont and the Great Valley, Shenandoah are Winchester, Marysville, Leesburg, Woodstock, Charlottesville, and Brent Town.

Early maps of many of the towns especially demonstrate the ideas and purposes of their founders. Along with the maps the authors specifics on the conception establishment and early period of the many towns makes each one stand out distinctively. The enterprises and goals of the town were as varied as the individuals who conceived them

**The city trip guide for Kolding (Denmark)**, 2025-09-26 **News bulletin** Historic Bethlehem, Inc, 1962 **Moravian Soundscapes** Sarah

Justina Eyerly, 2020-05-05 In Moravian Soundscapes Sarah Eyerly contends that the study of sound is integral to understanding the interactions between German Moravian missionaries and Native communities in early Pennsylvania. In the mid 18th century when the frontier between settler and Native communities was a shifting spatial and cultural borderland sound mattered. People listened carefully to each other and the world around them. In Moravian communities cultures of hearing and listening encompassed and also superseded musical traditions such as song and hymnody. Complex biophonic, geophonic and anthropophonic acoustic environments or soundscapes characterized daily life in Moravian settlements such as Bethlehem, Nain, Gnadenhütten and Friedenshütten. Through detailed analyses and historically informed recreations of Moravian communal environmental and religious soundscapes and their attendant hymn traditions, Moravian Soundscapes explores how sounds musical and nonmusical, human and nonhuman, shaped the Moravians' religious culture. Combined with access to an interactive website that immerses the reader in mid 18th century Pennsylvania and framed with an autobiographical narrative, Moravian Soundscapes recovers the roles of sound and music in Moravian communities and provides a road map for similar studies of other places and religious traditions in the future

**William Blake and the Cultures of Radical Christianity** Robert Rix, 2007-01-01 This study traces the links between William Blake's ideas and radical Christian cultures in late eighteenth century England. A detailed and historically grounded study of a key literary figure, this book should appeal to Blake scholars and historians with an interest in the radical and religious culture of late eighteenth and early nineteenth century England. New research on Blake's links to and reaction against the Swedenborg New Church make this study a valuable addition to scholarship in this area

*The Transformation of Moravian Bethlehem* Beverly Prior Smaby, 1988 The Moravians who settled Bethlehem, Pennsylvania in 1742 were committed to a society centered around missionary work. To free their missionaries from the need to earn a living, they formed a communal economic organization in which all workers gave their labor to the community in exchange for food, shelter, and clothing. To encourage each individual's religious development, family ties were deemphasized and members of the same sex, marital status, and age slept, worked, and worshipped together. After 20 years, the worldwide Moravian Church, facing a financial crisis, ordered Bethlehem to reorganize into a traditional community of nuclear families. It was hoped that under this more conventional arrangement, Bethlehem could be expected to help pay the huge debts of the parent church. In *The Transformation of Moravian Bethlehem*, Beverly Prior Smaby traces the effects of this change on Bethlehem's Moravians, demonstrating how it altered even the most intimate aspects of their lives. She analyzes the unusually accurate marriage, birth, death, migration, and

census records to assess the demographic response to institutional change She traces change in cultural norms through unique technical analyses of biographies which were read at a variety of Moravian gatherings Within 100 years Smaby asserts Bethlehem grew from an egalitarian communal society of symbolic Brothers and Sisters into a privatized community of socially stratified families whose cultural ideal was no longer religious service but usefulness to family and society Scholars of American history and folk life will find this book a valuable addition to literature on community history social change and historical methods Church historians will benefit from its in depth study of secularization on a personal level and it will be of keen interest to members of the Moravian Church    **Town and Country Planning** ,1968    *The Peoples of Pennsylvania* David E.
