Morbid Jealousy and Murder Ronald Rae Mowat, 1966

Explorations in Criminal Psychopathology Louis B. Schlesinger, 2007 When *Explorations in Criminal Psychopathology Clinical Syndromes With Forensic Implications* was first published in 1996 the purpose was in part to correct an imbalance in the field specifically with regard to the coverage of the important topic of psychopathology and its relationship to crime The second edition of this book continues to address the complex approach to this very specific and important aspect of human behavior Emphasizing on psychopathology from a clinical phenomenological perspective with legal issues and implications playing a secondary role an impressive group of contributors explores various disorders that have significant forensic implications Each deals with a specific disorder or pathological process in terms of its potential relevance to criminal forensic practice Updated and expanded articles approach these complexities largely from a psychodynamic perspective that also addresses the biological psychological and environmental aspects of behavior The book is divided into three parts Part I includes five different types of psychopathology that lead to distinct overt types of behavior Part II provides discussions of various disorders of thought resulting in criminal conduct but not disordered thinking indicative of a formal thought disorder per se Part III concerns borderline and psychotic like conditions as well as malingering and deception which are important topics in forensic practice This book meets a need in scientific literature as a significant resource for clinicians that are confronted with rare unusual or novel disorders whose potential implications have been less well studied and are therefore less apparent and familiar

Key Topics in Psychiatry Sheena C. Jones, Kate Roberts, 2007-01-01 This title is directed primarily towards trainee psychiatrists sitting MRCPsych or similar exams and qualified psychiatrists It summarizes information on a wide range of topics such as important journal articles clinical trials government White Papers guidelines and rating scales which are vital for both good exam performance and clinical practice but which are not available elsewhere between one set of covers Brings together information from disparate sources on the major areas of psychiatry saves much trawling through journals and other sources Covers the vital areas for each topic as relevant summaries of journal articles clinical trials government directives national guidelines Presents the information in an easily accessible form through the use of bullet points lists tables and diagrams Invaluable for the hard pressed exam candidate revising for the essay paper and clinical sections of Part II of the MRCPsych and similar exams Also highly relevant for psychiatric CPD and for day to day practice

Stalking, Harassment, and Murder in the Workplace Bernadette H. Schell, Nellie Lanteigne, 2000-09-30 The result is an important contribution to the literature on a growing hazard for people in the workplace and an essential resource for executives and managers who must cope with it

BOOK JACKET *Jealousy* Peter Toohey, 2014-11-25 Compete acquire succeed enjoy the pressures of living in today's materialistic world seem predicated upon jealousy the feelings of rivalry and resentment for possession of whatever the other has But while our newspapers abound with stories of the

sometimes droll sometimes deadly consequences of sexual jealousy Peter Toohey argues in this charmingly provocative book that jealousy is much more than the destructive emotion it is commonly assumed to be It helps as much as it harms Examining the meaning history and value of jealousy Toohey places the emotion at the core of modern culture creativity and civilization not merely the sexual relationship His eclectic approach weaves together psychology art and literature neuroscience anthropology and a host of other disciplines to offer fresh and intriguing contemporary perspectives on violence the family the workplace animal behavior and psychopathology Ranging from the streets of London to Pacific islands and from the classical world to today this is an elegant smart and beautifully illustrated defense of a not always deadly sin

Seven Deadly Sins Dr. Guy Leschziner, 2024-12-03 A FINANCIAL TIMES BEST BOOK OF THE YEAR Seven Deadly Sins will explore the underlying nature of the seven deadly sins their neuroscientific and psychological basis and their origin in our genes Gluttony Greed Sloth Pride Envy Lust Anger These are The Seven Deadly Sins the vices of humankind that define immorality But do these sins really represent moral failings or are they simply important and useful biological functions that humans need to survive Instead of being acts of immorality are they really just a result of how our bodies our psyches and our brains in particular are wired In Seven Deadly Sins The Biology of Being Human Guy Leschziner a professor of neurology dares to turn much of what society thinks of as morality on its head and to ask these controversial questions Leschziner takes readers on an exploration of the Seven Deadly Sins as he looks at their neuroscientific and psychological bases their origin in our genes and crucially how certain medical disorders may give rise to them He introduces us to patients whose physical and psychological conditions have given rise to behaviours that have for centuries been labelled as sin and how these behaviours might actually be evolutionary imperatives that preserve the tribe and ensure the wellbeing of our societies In Seven Deadly Sins a book certain to cause debate and raise controversy Guy Leschziner a writer who has explored the mysteries of our sleeping brains and the odd crossed wires of our five senses asks whether these traits truly represent sin or simply reflect our intrinsic drive to survive and thrive

Sexual Murder Louis B. Schlesinger, 2021-03-22 Sexual Murder Catathymic and Compulsive Homicides is the culmination of the author's 45 years of experience with and studying sexually motivated homicide Sexual murders are generally of two types catathymic and compulsive Catathymic homicides are caused by a breakthrough of underlying sexual conflicts They can be unplanned explosive acute attacks or planned murders stemming from a chronic obsession with or disturbed attachment to the victim In compulsive homicides a fusion of sex and aggression results in a powerful internal drive which pushes the offender to seek out victims to kill and the killing itself is sexually gratifying These murders also may be planned or unplanned In compulsive homicides that are unplanned the urge breaks through and disrupts the offender's controls when a victim of opportunity crosses his path The compulsive offender who plans his crimes often eludes law enforcement and as a result he can have multiple serial victims over extended periods of time Both forms of sexual murder the catathymic and the compulsive are presented in this volume from a clinical descriptive

perspective encompassing case studies with analysis Recent advances in empirical research in sexual murder including findings from the joint research project between John Jay College of Criminal Justice and the FBI Behavioral Analysis Unit in Quantico has published many important studies These include such topics as necrophilia foreign object insertions in sexual homicide ritual and signature and temporal patterns in serial sexual homicide mass murder crime scene staging in homicide and undoing symbolic reversal at homicide scenes All such research will be included and incorporate into this fully updated Second Edition including approximately fifty new clinical case studies Murder Followed by Suicide Donald James West,1966 **The Phenomenon of Family Murder in South Africa** Louise Olivier,1991 **Murder and Assassination** Albert Ellis,John M. Gullo,John Marshall Gullo,1971 **Crime and Delinquency Abstracts and Current Projects** ,1963 Crime and Delinquency Abstracts ,1966 **Seminars in General Adult Psychiatry** George Stein,Greg Wilkinson,2007-04 This second edition of *Seminars in General Adult Psychiatry* provides a highly readable and comprehensive account of modern adult psychiatry Key features of the first edition that have been retained are the detailed clinical descriptions of psychiatric disorders and historical sections to give the reader access to the classic studies of psychiatry as well as the current evidence Additional topics covered here for the first time include liaison psychiatry psychosexual medicine clinical epidemiology and international and cultural psychiatry Clinical management is given due prominence with extensive accounts of modern drug management cognitive therapy the main psychosocial approaches and current guidelines such as those published by the National Institute for Health and Care Excellence An essential text for trainees studying for their MRCPsych this book is also a one stop reference work for established practitioners providing comprehensive coverage of the whole of adult psychiatry **The Diseases of Society** George Frank Lydston,1908 *Homicide, a Bibliography of Over 4,500 Items* Bal K. Jerath,Paul E. Larson,Jesse F. Lewis,1982 **International Library of Criminology** Ronald Rae Mowat,1966 **Alienist and Neurologist** Charles Hamilton Hughes,1892 **Ceylon** ,1925 *The Sexual Instinct* Charles Féré,1900
