Electronic foetal monitoring EFM has contributed significantly to the understanding of foetal physiology and the spectrum of cardiac responses. It has proven to be beneficial toward the successful foetal management of patients with post dates hypertention, twins, decreased foetal growth, diabetes, heart or kidney diseases. This testing enhances the outcome of high or low risk patients.

Point-of-Care Assessment in Pregnancy and Women's Health Cydney A. Menihan, Ellen Kopel, 2014-07-11. This heavily illustrated full color text serves as the most current and vital resource for providing safe and effective point of care assessment to fetuses and women, offering a solid didactic base of knowledge in both electronic fetal monitoring and sonography. Section One: Electronic Fetal Monitoring covers the physiology of the fetal heart rate and fetal monitoring technology and elements of informational technology. Section Two: Sonography highlights the clinical interdependence of point of care sonography as a complementary technology in conjunction with EFM. **Point of Care Assessment in Pregnancy and Women's Health** covers the principles needed to incorporate point of care sonography into clinical practice, indications for diagnostic ultrasound, how ultrasound equipment works to help the reader obtain the best images, point of care sonographic assessment and evaluation of fetal well being and gynecologic and reproductive medicine imaging.

Maternity Nursing - Revised Reprint - E-Book Deitra Leonard Lowdermilk, Shannon E. Perry, Kitty Cashion, 2013-11-29. Designed to meet the needs of today's students, Lowdermilk's *Maternity Nursing* 8th Edition Revised Reprint addresses the fundamentals of maternity nursing with a concise, focused presentation of the care of women during the childbearing years. Integrating considerations for family culture and health promotion into the continuum of care, it also addresses community-based care to emphasize that nursing care takes place in many settings. *Maternity Nursing* focuses on childbearing issues and concerns, including care of the newborn as well as wellness promotion and management of common women's health problems. Critical thinking exercises present case studies of real life situations and corresponding critical thinking questions to help you develop your analytical skills. **NEW!** A helpful appendix identifies text content that reflects the QSEN competencies: patient-centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety, and informatics to assist you in developing competencies to provide safe and effective nursing care. **NEW!** Focus on the family recognizes the nurse's need to integrate the family in the care of the mother and newborn and the importance of the role of the mother to the wellbeing of the family. **NEW!** Content updates throughout, including information on the late preterm infant and associated concerns such as feeding guidelines on prioritization and delegation where relevant, and centering pregnancy, a new model of health care that brings women together in groups for their care. **NEW!** Evidence-based practice content focuses your attention on how to use current research to improve patient outcomes. **NEW!** Improved readability helps you learn more efficiently with shorter, more focused content discussions. **NEW!** 21st Century Maternity Nursing Culturally
