Oxford English For Information Technology:

Libro Eric H. Glendinning, John McEwan, 2006 Oxford English for Information Technology is a course for students of information technology and computing or for people already working in the IT sector. It is suitable for use in universities, technical schools and on adult education programmes with students at intermediate to advanced level who want to improve and extend their language skills in the context of IT. This second edition has been carefully and selectively revised to take account of recent developments in this fast moving sector and to ensure that the material is up to date. The new material reflects changes in such as technical specifications, new technologies and working practices. The glossary has also been updated.
