Monuments A Novel:

The Story of Our National Monuments ... ,1920 *The Monuments of Paris* Violaine Huisman,2026-04-14 A remarkable novel drawn from life about a Frenchwoman's efforts to come to terms with the legacy of her father and grandfather both powerful forces who left a mark on their country's culture but whose incorrigible womanizing also left a complex mark on their wives and children Violaine Huisman grew up in Paris with her beautiful often hospitalized manic depressive mother the subject of Huisman's acclaimed debut novel *The Book of Mother* and her iconoclastic flamboyant Balzacian character of a father a larger than life figure whose paternal love for his youngest daughter was as dramatically narcissistic as it was untrustworthy The one constant in her father's personal narrative was always his obsession with the story of his childhood during the Vichy regime in France and of his father Georges long dead a Belgian Jew whose heroic and tragic biography had taken on the trappings of family myth In *The Monuments of Paris* Violaine Huisman has transformed these complex layers of history into an elegant and moving novel about exile and belonging about the lies families are built on and the truths they hold dear As the novel opens Violaine returns to Paris from her adopted home of New York City to visit her dying father for the last time And as his conversation once again obsessively circles the story of his father's rise and fall during the war Violaine who always felt herself and her mother to be exiles within their own clan becomes herself obsessed with this myth of her grandfather Georges and especially with the nearly erased story of the most significant of his many mistresses a beautiful and aristocratic woman named Choute With the help of a local historian she sets out to hunt down the truth as it might be known and in so doing creates the necessary and deeply compelling fiction that is this singular book In prose as elegant as it is precise *The Monuments of Paris* draws a haunting portrait of twentieth century France through the outsized ambitions infidelities and tragedies of the author's own family both real and imagined **Reading Confederate Monuments** Maria Seger,2022-08-24 Winner of a 2023 Edited Collection Award from the South Atlantic Modern Language Association Contributions by Danielle Christmas Joanna Davis McElligatt Garrett Bridger Gilmore Spencer R Herrera Cassandra Jackson Stacie McCormick Maria Seger Randi Lynn Tanglen Brook Thomas Michael C Weisenburg and Lisa Woolfork *Reading Confederate Monuments* addresses the urgent and vital need for scholars educators and the general public to be able to read and interpret the literal and cultural Confederate monuments pervading life in the contemporary United States The literary and cultural studies scholars featured in this collection engage many different archives and methods demonstrating how to read literal Confederate monuments as texts and in the context of the assortment of literatures that produced and celebrated them They further explore how to read the literary texts advancing and contesting Confederate ideology in the US cultural imaginary then and now as monuments in and of themselves On top of that the essays published here lay bare the cultural and pedagogical work of Confederate monuments and counter monuments divulging how and what they teach their readers as communal and yet contested narratives thereby showing why the persistence of Confederate

monuments matters greatly to local and national notions of racial justice and belonging In doing so this collection illustrates what critics of US literature and culture can offer to ongoing scholarly and public discussions about Confederate monuments and memory Even as we remove relocate and recontextualize the physical symbols of the Confederacy dotting the US landscape the complicated histories cultural products and pedagogies of Confederate ideology remain embedded in the national consciousness To disrupt and potentially dismantle these enduring narratives alongside the statues themselves we must be able to recognize analyze and resist them in US life The pieces in this collection position us to think deeply about how and why we should continue that work

Heritage or Heresy B. Schildgen, 2016-01-23 This is an account of the roles of local and national movements and of memory and regret in the destruction or preservation of the architectural artistic and historic legacy of Europe in which the author examines what is cultural heritage and why it matters
