*Moral Philosophy* George Sher, 1987      *Doing and Being* Joram Graf Haber, 1993 Focusing on the field of Virtue Ethics the book addresses compelling issues through the use of both classic works and groundbreaking new selections many of which are anthologized here for the first time Aristotle and Aquinas Baier and Stocker are among the philosophers whose works are represented Homosexuality capital punishment and wickedness are among the provocative topics addressed

**Exploring Ethics** C S Lewis, Philip Yancey, Lewis B Smedes, Tony Campolo, Frederick Buechner, 1992-01-01 A collection of readings which define ethics discuss moral decision making and present significant issues debated in this world      Selected Readings in the Philosophy of Education Joe Park, 1974      **The Principles of New Ethics II** Wang Haiming, 2020-10-29

From Descartes to Spinoza Western philosophers have attempted to propose an axiomatic systemization of ethics However without consensus on the contents and objects of ethics the system remains incomplete This fourvolume set presents a model that highlights a Chinese philosopher s insights on ethics after a 22 year study Three essential components of ethics are examined metaethics normative ethics and virtue ethics This volume is the fi rst part of the discussion on normative ethics The author sets out to discuss morality and shows how the reasoning behind it can be both good and bad for human society from various perspectives A system of an ultimate standard of morality is introduced and it is shown that where there are confl icts between different moral norms that cannot be compromised people undoubtedly sacrifi ce less important moral norms to follow more fundamental and important moral norms or principles The ultimate standard of morality is also the ultimate value standard for the evaluation of the goodness or badness of state institutions Justice is the fundamental value standard to measure state institutions Equality is the most important justice The Chinese version of this set sold more than 60 000 copies and has exerted tremendous infl uence on the academic scene in the People s Republic The English version will be an essential read for students and scholars of ethics and philosophy in general      **The Ontological Foundation of**

**Ethics, Politics, and Law** Francesco Belfiore, 2013-03-25 The revised edition of *The Ontological Foundation of Ethics Politics and Law* adds new concepts and discusses the views of additional thinkers The author refers to his basic ontological conception of the human mind or spirit as an evolving conscious triadic entity composed of intellect sensitivity and power each exerting a bidirectional selfish and moral activity Through this approach the notions of good morality society and law are derived from the structure and functioning of the mind It follows that the solutions presented are the results of a discovery and not the consequence of a choice Otherwise stated ethics politics and law are given an ontological foundation For each topic considered Belfiore shows how his thought can reinterpret the views of other philosophers This new edition enriched in concepts and quotations appears as an innovative and highly stimulating contribution to the philosophical branches of ethics politics and law and will be of interest to both graduate students and philosophy scholars      Selected Readings in American History Theodore Calvin Pease, Ashbel Sellew Roberts, 1928      The Radical Choice and Moral Theory

Zhenming Zhai,1994-10-31 In a crisp original style the author approaches the crucial question of moral theory the is ought problem via communicative argumentation Moving to the end of Habermas s conception of the communicative action he introduces the concept of radical choice as the key to the transition from the descriptive to the normative Phenomenological subjectivity of the intersubjective life world is being vindicated as the arch value of all derivative values or the first principle for all normative precepts With exceptional acumen and mastery of the philosophical argument the author a young native Chinese lately trained in a Western university delineates a fascinating route along which the philosophical question of justification raised in the analytic tradition can be answered on the basis of phenomenology A noteworthy contribution to the interplay between the Anglo American and Continental schools of philosophy      **The A to Z of Ethics** Harry J.
