Frank Kraft,1907 The Conscious Teacher Deborah Nichols Poulos,2020-01-13 The Conscious Teacher is about all kinds of
strategies and techniques educators might employ to become more effective teachers In an accessible conversational style
Deborah Nichols Poulos presents unique approaches to teaching that will inspire new and veteran teachers alike She begins
with her personal story of not being able to read all through elementary school Her early failures convinced her she was
dumb At first she struggled but when she still failed she adopted an avoidance strategy that served her well until junior high
An experience in the seventh grade flipped a switch and started her on a journey to becoming an outstanding student and
later to applying the lessons she learned as a child to her own teaching What makes The Conscious Teacher unique are the
inspirational lessons that are unlike what most teachers get in their teacher education courses or student teaching Ms
Nichols Poulos points out for example that from the very first day it is important that students learn they will be treated with
dignity and respect no matter what And especially helpful are the steps Ms Nichols Poulos employs to set up a behavior
management plan that works She explains the strategic steps she takes before school starts how essential it is to get to know
each student before they walk into class on that first day She also illustrates how setting up classroom routines helps
students know what to expect and how to make the best use of every minute And she emphasizes the importance of the
parent student teacher team and includes many examples of how to communicate with and involve parents even those who
may be difficult Foundational to her program are reading and writing Among other things she lays out the steps for students
even as early as fourth grade to write five paragraph essays and their own student authored books and to research and write
reports that include bibliographies When she differentiated curriculum to support all students needs she found their learning
accelerated All teachers will appreciate her ideas about how to teach the basics of math as well as advanced math concepts
And her ideas for teaching the arts are inspirational as she describes in detail how her fourth graders performed
Shakespeare s Hamlet Macbeth King Lear Julius Caesar and A Midsummer Night s Dream She also shows how to integrate

social studies with literature and writing Her experiences taught her that young students are much more capable than many people realize The Conscious Teacher is an indispensable guide for all new teachers Many of the ideas Ms Nichols Poulos provides will also be an eye opener for parents and experienced teachers as well The Conscious Teacher is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling
