## Over Is Not Up:

Simplicius: On Epictetus Handbook 27-53 Charles Brittain, Tad Brennan, 2014-04-10 The Enchiridion or Handbook of the first century AD Stoic Epictetus was used as an ethical treatise both in Christian monasteries and by the sixth century pagan Neoplatonist Simplicius. Simplicius chose it for beginners rather than Aristotle's Ethics because it presupposed no knowledge of logic. We thus get a fascinating chance to see how a pagan Neoplatonist transformed Stoic ideas. The text was relevant to Simplicius because he too like Epictetus was teaching beginners how to take the first steps towards eradicating emotion although he is unlike Epictetus in thinking that they should give up public life rather than acquiesce if public office is denied them. Simplicius starts from a Platonic definition of the person as rational soul not body ignoring Epictetus further whittling down of himself to just his will or policy decisions. He selects certain topics for special attention in chapters 1, 8, 27 and 31. Things are up to us despite Fate. Our sufferings are not evil but providential attempts to turn us from the body. Evil is found only in the human soul. But evil is parasitic. Proclus term on good. The gods exist are provident and cannot be bought off. With nearly all of this the Stoics would agree but for quite different reasons and their own distinctions and definitions are to a large extent ignored. This translation of the Handbook is published in two volumes. This is the second volume covering chapters 27-53. The first covers chapters 1-26. Trauma when activated can produce a wide range of symptoms including increased anxiety and depression, body pain, loss of memory and concentration, difficulties sleeping, flashbacks, nightmares, the desire to isolate socially and a wide range of intense feelings to name a few. It can also trigger a wide range of behaviours that are often bewildering to comprehend and to allay. Heal Trauma will serve as a guiding light in these dark times helping readers to understand the intense feelings they experience and help them process and release emotion that has been triggered. The book will also help illuminate patterns of behaviour for instance procrastination, perfectionism and obsessive rituals and link the pattern to past trauma. The vignettes on patterns will also guide the reader into taking action to undermine the pattern and find alternative ways to respond. The section on releasing trauma engages the reader through a process of creating a visual drawing that reflects their present experience of trauma activation and will help guide a process to release traumatic memory and associated embodied emotion. This book is intended to be medicine in the moment and a trusted resource throughout one's life. It is a book to pick up repeatedly when another layer of trauma surfaces and the desire to heal is strong.
