## **Overcoming Apartheid:**

**Overcoming Apartheid** James L. Gibson, 2004-04-15 Perhaps no country in history has so directly and thoroughly confronted its past in an effort to shape its future as has South Africa. Working from the belief that understanding the past will help build a more peaceful and democratic future, South Africa has made a concerted institutionalized effort to come to grips with its history of apartheid through its Truth and Reconciliation Commission. In *Overcoming Apartheid*, James L. Gibson provides the first systematic assessment of whether South Africa's truth and reconciliation process has been successful. Has the process allowed South Africa to let go of its painful past and move on? Or has it exacerbated racial tensions by revisiting painful human rights violations and granting amnesty to their perpetrators? *Overcoming Apartheid* reports on the largest and most comprehensive study of post-apartheid attitudes in South Africa to date, involving a representative sample of all major racial, ethnic, and linguistic groups. Grounding his analysis of truth in theories of collective memory, Gibson discovers that the process has been most successful in creating a common understanding of the nature of apartheid. His analysis then demonstrates how this common understanding is helping to foster reconciliation as defined by the acceptance of basic principles of human rights and political tolerance, rejection of racial prejudice and acceptance of the institutions of a new political order. Gibson identifies key elements in the process such as acknowledging shared responsibility for atrocities of the past that are essential if reconciliation is to move forward. He concludes that without the truth and reconciliation process, the prospects for a reconciled democratic South Africa would diminish considerably. Gibson also speculates about whether the South African experience provides any lessons for other countries around the globe trying to overcome their repressive pasts. A groundbreaking work of social science research, *Overcoming Apartheid* is also a primer for utilizing innovative conceptual and methodological tools in analyzing truth processes throughout the world. It is sure to be a valuable resource for political scientists, social scientists, group relations theorists, and students of transitional justice and human rights.

**Overcoming Apartheid** James L. Gibson, 2004      [The Next Twenty-five Years](#) David Lee Featherman, Marvin Krislov, Martin Hall, 2009-12-18 A must read for anyone who cares about the future of higher education in diverse democracies

*Borderlands Media* David E. Toohey, 2012-01-01 *Borderlands Media*: Cinema and Literature as Opposition to the Oppression of Immigrants by David E. Toohey explores the ways in which immigrants and diaspora communities and their allies use alternative media to reject oppression. This in-depth analysis of the immigrant experience makes use of a mixture of cinema, literary, and other artistic media from 1958 onward, combined with supporting social science and policy documents. *Borderlands Media* is an essential text for scholars and students engaged in questions of media's effect on the oppression of immigrants and diaspora communities.      **Confronting the Challenge** Suzanne Mulligan, 2010 This book examines some of the ways in which HIV/AIDS is affecting South African society. Catholic theological responses have focused extensively on the implications of HIV/AIDS for the area of sexual ethics. Although there are important questions to be answered here, many

more fundamental issues have been overlooked as a result This book responds to the need within Catholic theology for a greater examination of the injustices associated with the AIDS pandemic The author argues that the human rights challenges associated with poverty gender discrimination sexual violence and access to essential AIDS related health care are a crucial feature of the crisis The author turns to the social teaching of the Catholic Church for a fuller framework of analysis in this regard and provides a critical examination of that teaching's core concepts and principles The work of leading international economists Amartya Sen and Muhammad Yunus is explored as a means of relating the principles of Catholic social teaching to the concrete social and economic realities that exacerbate this global pandemic **Time, Memory, and the Politics of Contingency** Smita A. Rahman, 2014-07-11 In recent years there has been an increased attention to temporality in political theory and such attention is sorely needed For too long political theory with the exception of occasional phenomenological forays has remained grounded in a particular experience of time as linear and sequential This book aims to unsettle the dominant framework by putting time itself and the experience of time in everyday life at the center of its critical analysis Smita Rahman focuses on the experience of time as one where past present and future intermingle with each other and refuse to adhere to a sequential structure Rather than trying to tame the flux of time this book places this out of joint experience of time at the center of its analysis of global politics Rahman takes the highly abstract concept of time and decenters it to speak to a wide range of political issues across disciplines She does so by exposing the cultural construction of the foundational concept of time in political theory and attending closely to the challenges of cultural incommensurability that it encounters in a globalized world of difference Specifically the book looks at interrogation practices in Afghanistan the challenges of coping with the burdens of collective memory in Algeria South Africa and Rwanda the difficulty of uncritically applying such a framework to the Muslim world through the language of secularism and finally at the beginnings of democratic emergence in Bangladesh to explore a politics of contingency By focusing on issues of contemporary global politics through the lens of political theory this book draws on literature across disciplines and explores the complex image of time by engaging the work of thinkers for whom time and memory have emerged as a critical issue of analysis and unpacking the politics of contingency that emerge from such a reading The book's new insights on political temporality will interest scholars of contemporary political theory comparative political theory critical theory human rights conflict studies and religion and politics **Moral Repair** Margaret Urban Walker, 2006-09-18 Moral Repair examines the ethics and moral psychology of responses to wrongdoing Explaining the emotional bonds and normative expectations that keep human beings responsive to moral standards and responsible to each other Margaret Urban Walker uses realistic examples of both personal betrayal and political violence to analyze how moral bonds are damaged by serious wrongs and what must be done to repair the damage Focusing on victims of wrong their right to validation and their sense of justice Walker presents a unified and detailed philosophical account of hope trust resentment forgiveness and making amends the emotions and practices that

sustain moral relations Moral Repair joins a multidisciplinary literature concerned with transitional and restorative justice reparations and restoring individual dignity and mutual trust in the wake of serious wrongs *The Oxford Handbook of Intergroup Conflict* Linda Tropp, 2012-07-26 With insightful chapters from key social psychologists and peace scholars this handbook offers an integrative and extensive overview of critical questions issues processes and strategies relevant to understanding and addressing intergroup conflict *Maputaland*, 1990 **The Healing of a Nation?** Alex Boraine, Janet Levy, 1995 A collection of papers delivered at a conference in July 1994 on the subject of a Truth and Reconciliation Commission Includes the challenge facing South Africa Commissions of truth and reconciliation Chile Patricio Aylwin Jose Zalaquett Argentina Catalina Smulovitz El Salvador Patricia Valdez Contributions by Richard Goldstone Dullah Omar Antjie Krog Albie Sachs Frank Chikane *Law, Society, and Democracy: Comparative Perspectives* Richard D. Schwartz, 2006-10-09 In George Bush's Second Inaugural Address he stated so it is the policy of the United States to seek and support the growth of democratic movements and institutions in every nation and culture Along with such a formidable challenge comes the essential need for scholars and policy makers alike to gain a deeper understanding of the interrelationship between law society and culture Collected from the successful 2005 Syracuse conference of the same name the papers in this unique issue of The ANNALS zero in on critical studies that focus on other societies which are evolving toward or away from constitutional democracy and a rule of law Not to be confused with Social Darwinism the term legal evolution in this context refers to the development or changes of law and the papers included here demonstrate value free objectivity not labeling the results as either good or bad Rather than offering a prescriptive or claiming a precise forecast this collection of thoughtful research examines the sociocultural foundations on which law is built constructing the groundwork for the advancement of policy and further exploration in this intriguing area of study The intense research conducted by these authors shines through as they elucidate the patterns of legal development and governmental change in societies abroad Their reports and analysis will help readers understand the diversity of sociolegal systems and divergent paths that have been followed as laws have developed in a wide variety of societies including South Africa Germany Latin America Sudan Saudi Arabia and China Terrorism remains an underlying issue in both a domestic and global perspective Can law contribute to the control of terrorism Are we moving toward global rules of law What are the consequences of transitioning toward democracy The thoughtful papers in this issue address these and other timely topics How can legal evolution be a useful tool for analyzing social change How well does law in any society express and implement the needs of the population What effect do social mores have on the effectiveness of law The complexity of these questions cannot be easily answered However after carefully reviewing the rich collection of ideas gathered in this single issue scholars and policy makers will gain a deeper understanding of the evolution of law and constitutional democracy **Protecting Human Rights in a New South Africa** Albie Sachs, 1990 9 Rights to the land **The Cutting Edge** Mark Ellingsen, 1993 Ellingsen
