*Organizational Behavior Management - An introduction (OBM)*

Joost Kerkhofs Robert den Broeder, 2020-11-03 This book is about achieving behavioral change in organizations. It provides a specific practically applicable answer to the how question of behavioral change based on scientifically validated principles. This distinguishes this book from many other management books. Organizational Behavior Management or OBM for short is the field that deals with behavioral change in organizations. Some prefer to speak of targeted behavioral influence. OBM is not about changing people nor is it about manipulating people. It is about changing the environment in which people behave. The goal is to create working conditions that inspire and motivate people to deliver peak performance. Leaders play an important facilitating role in creating and maintaining such working conditions. Applying OBM principles properly makes people happy to perform well every day. That's fun for everyone, it creates an absolute win-win situation. People exhibit or display observable behavior all day long. Sometimes people emit outright unwanted behavior. Others just don't do what we agreed upon or don't do what they learned in training. Many organizations suffer from clumsy unwanted or even dysfunctional behavior in the workplace. For example, in the form of pocket veto and saying yes meaning no, victim behavior avoidance behavior or escape behavior. Analyzing observable behavior for example answers the following questions: Why are we now specifically emitting this behavior and not other behavior? How do you get people to want to behave differently? This book gives answers to these questions and provides executives and other influencers with a solid and evidence-based approach for dealing with behavioral performance and motivational issues.

**22nd European Conference on e-Learning** Shawren Singh, Sarah Jane Johnston, 2023-10-26 These proceedings represent the work of contributors to the 22nd European Conference on e-Learning ECEL 2023 hosted by University of South Africa Pretoria South Africa on 26-27 October 2023. The Conference Co-Chairs Associate Professor Sarah Jane Johnston and Associate Professor Shawren Singh both from University of South Africa Pretoria South Africa. ECEL is now a well-established event on the academic research calendar and now in its 22nd year the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. It is especially relevant that the conference is being hosted by UNISA this year as the university celebrates its 150th anniversary. UNISA has been a pioneer in first distance and now e-Learning. The conference will also host the final round of the 9th e-Learning Excellence Awards where innovative case histories will be presented. The opening keynote presentation is given by Professor Thenjiwe Meyiwa Vice Principal for the Research Postgraduate Studies Innovation and Commercialisation at University of South Africa who will speak on The Role of African Feminisms in Shaping a Sustainable Future of Being and Learning. An afternoon keynote on Thursday will be made by Dr Zolile Martin Mguda University of South Africa on the topic of ChatGPT. The first year. The second day of the conference will open with an address by Dr Isabel Tarling MD Limina South Africa with the title Developing Digital Standards for Learning and Teaching in South Africa's Schools. With an initial submission of 100 abstracts after the double-blind peer review process.

there are 45 Academic research papers 3 PhD research papers and 1 Masters Research paper published in these Conference Proceedings These papers represent research from Belgium Canada Chile Czech Republic France Germany Ghana Greece Hong Kong Ireland Japan Malaysia Mozambique Norway Oman Per Poland Portugal Romania Singapore South Africa Sri Lanka Sweden Switzerland Turkey and the United Kingdom

**Quarterly Review of Distance Education** Michael Simonson, Anymir Orellana, 2022-08-01 The Quarterly Review of Distance Education is a rigorously refereed journal publishing articles research briefs reviews and editorials dealing with the theories research and practices of distance education The Quarterly Review publishes articles that utilize various methodologies that permit generalizable results which help guide the practice of the field of distance education in the public and private sectors The Quarterly Review publishes full length manuscripts as well as research briefs editorials reviews of programs and scholarly works and columns The Quarterly Review defines distance education as institutionally based formal education in which the learning group is separated and interactive technologies are used to unite the learning group

*Keeping Pace with K-12 Online Learning* John Watson, Amy Murin, Lauren Vashaw, Butch Gemin, Chris Rapp, 2010 Keeping Pace has several goals First it strives to add to the body of knowledge about online education policy and practice and make recommendations for advances Second it serves as a reference source for information about programs and policies across the country both for policymakers and practitioners who are new to online education and for those who have extensive experience in the field Third because there has been so much online education activity in the past year the report attempts to capture new activity Readers who have reviewed Keeping Pace in recent years may note some changes to the organization of this year's report In particular with online learning growing in so many directions the authors have decided to organize the opening sections of the report into online program categories The reason for this is that the key issues in online learning e.g. funding student assessment are so different for the different categories that discussing funding across all the types of programs has become confusing In essence the authors have changed from organizing by topic e.g. funding to organizing by program type e.g. state virtual schools After an Executive Summary which provides a stand alone summary of key numbers issues and trends Online Learning Background Categories and Definitions is the report's introductory section It is meant for readers who are relatively new to K-12 online learning Because there are many terms in online learning without commonly understood definitions this section defines the key terms used in this report The State of K-12 Online Learning in 2010 begins with a snapshot of online learning in each state It then reviews the number of schools and students taking online courses in several categories state virtual schools full time statewide online schools district programs and consortium programs Emerging Issues and Trends reviews blended learning including use of blended learning in school turnarounds competency based learning and mobile learning The Outlook and Conclusion looks at how blended learning represents a synthesis of online learning and computer based instruction and how that plays into future adoptions particularly at the district level The State Policy Profiles contain online learning profiles of all

fifty states in alphabetical order Most state profiles include footnotes that reference state laws and state policies However in some cases the information is general and was gathered through numerous website reviews and phone interviews with state agencies in these cases footnotes are not included The primary purpose of footnotes is to provide the source documents that will be most valuable to readers Contains 9 figures 18 tables and 332 footnotes Additional funding for this paper was provided by North Carolina Virtual Public School For Keeping Pace with K 12 Online Learning An Annual Review of State Level Policy and Practice 2009 see ED535909

*Online Education* Greg Kearsley,2000 Online education or instruction any form of learning teaching via a computer network i e Internet WWW or LAN is rapidly becoming a major mode of educational delivery used by schools colleges and corporations ONLINE EDUCATION is a comprehensive introduction to and overview of learning and teaching in cyberspace Kearsley an author of Wadsworth s DISTANCE EDUCATION A SYSTEMS VIEW provides pre service and in service teachers college faculty and staff with a formal survey of this new and growing educational paradigm

*Social Presence in Online Learning* Aimee L. Whiteside,Amy Garrett Dikkens,Karen Swan,2023-07-03 Published in Association with 2020 AECT Division of Distance Learning Book AwardSocial presence continues to emerge as a key factor for successful online and blended learning experiences It is commonly described as the degree to which online participants feel connected to one another Understanding social presence with its critical connections to community building retention and learning outcomes allows faculty and instructional designers to better support and engage students This volume Social Presence in Online Learning addresses the evolution of social presence with three distinct perspectives outlines the relevant research and focuses on practical strategies that can immediately impact the teaching and learning experience These strategies include creating connections to build community applying content to authentic situations integrating a careful mix of tools and media leveraging reflective and interactive opportunities providing early and continuous feedback designing with assessment in mind and encouraging change in small increments Because student satisfaction and motivation plays a key role in retention rates and because increased social presence often leads to enriched learning experiences it is advantageous to mindfully integrate social presence into learning environments Social Presence in Online Learning brings together eminent scholars in the field to distinguish among three different perspectives of social presence and to address how these viewpoints immediately inform practice This important volume Provides an overview of the evolution of social presence key findings from social presence research and practical strategies that can improve the online and blended learning experience Differentiates three distinct perspectives on social presence and explains the ideas and models that inform these perspectives Explores specific ways in which social presence relates to course satisfaction retention and outcomes Offers practical implications and ready to use techniques that are applicable to multiple disciplines Introduces current research on social presence by prominent researchers in the field with direct inferences to the practice of online and blended learning Looks at future directions for social presenceSocial Presence in Online Learning is appropriate for practitioners researchers

and academics involved in any level of online learning program design course design instruction support and leadership as well as for graduate students studying educational technology technology enhanced learning and online and blended learning It brings together multiple perspectives on social presence from the most influential scholars in the field to help shape the future of online and blended learning How to Master Online Learning: Looking at Online Options Peterson's,2010-12-01
