Ovid's Amores:

Ovid's Amores, Book One Caroline A. Perkins, Maureen B. Ryan, 2012-10-09 Students of Latin have long enjoyed the poetry of Ovid but his love poems aptly titled *Amores* have proved more difficult to introduce into the classroom Curricular changes and increased appreciation of sophisticated love poetry are finally making room for the *Amores* This edition of the first book of the *Amores* the only one available for both intermediate and advanced level classes addresses the needs of students of varying abilities and experience helping them comprehend and more fully enjoy the rich complexities of Ovid's poetry In their introduction to the volume Maureen B Ryan and Caroline A Perkins recount Ovid's career as a poet describe the elegiac genre and explain elegiac meter and style For the Latin text they briefly introduce each poem acquainting students with relevant subject matter and themes Their commentary provides helpful notes clarifying grammatical constructions word order ellipsis and other complexities of the Latin language that can challenge even the most experienced student On the assumption that students will gain skills as they work through each poem Ryan and Perkins give extensive and repeated assistance at the beginning of the text tapering off as the student's facility increases Throughout their commentary they highlight thematic points of interest explain mythological cultural and literary allusions and stress the importance of Ovid's literary innovations In addition to the critical apparatus accompanying each poem this volume features a glossary of literary terms a comprehensive Latin to English vocabulary and an up to date bibliography *Ovid's Amores* Ovid, 1968 **Loving Writing/Ovid's Amores** Ellen Oliensis, 2019-07-11 Offers detailed reading of the *Amores* oriented toward the writer's and reader's pleasure that reframes the discussion around elegy and identity *Amores* Ovid, 1973

The Amores; or, Amours Ovid, 2018-08-11 *Ovid's Erotic Poems* Ovid, 2014-09-16 The most sophisticated and daring poetic ironist of the early Roman Empire Publius Ovidius Naso is perhaps best known for his oft imitated *Metamorphoses* But the Roman poet also wrote lively and lewd verse on the subjects of love sex marriage and adultery a playful parody of the earnest erotic poetry traditions established by his literary ancestors The *Amores* Ovid's first completed book of poetry explores the conventional mode of erotic elegy with some subversive and silly twists the poetic narrator sets up a lyrical altar to an unattainable woman only to knock it down by poking fun at her imperfections *Ars Amatoria* takes the form of didactic verse in which a purportedly mature and experienced narrator instructs men and women alike on how to best play their hands at the long con of love Ovid's *Erotic Poems* offers a modern English translation of the *Amores* and *Ars Amatoria* that retains the irreverent wit and verve of the original Award winning poet Len Krisak captures the music of Ovid's richly textured Latin meters through rhyming couplets that render the verse as playful and agile as it was meant to be Sophisticated satirical and wildly self-referential Ovid's *Erotic Poems* is not just a wickedly funny send up of romantic and sexual mores but also a sharp critique of literary technique and poetic convention **Amores** Ovid, 1968 Parallel Latin English texts **Amores** Ovid, 1973 Ovid: Amores, Metamorphoses Selections 3rd Edition Charbra Adams Justin, Phyllis

B. Katz, This bestseller now features 277 more lines of Ovid The updated version includes Metamorphoses I 1 88 and X 1 85 and Amores 2 19 and 3 12 Narrative in Ovid's Amores Natalie Swain, 2026-01-08 Examines Ovid's Amores through a comics based methodology to demonstrate how Latin elegy uses its segmented format to build narrative across sequences and books of individual poems Ovid's Literary Loves Barbara Weiden Boyd, 1997 Brings the Amores into the forefront of scholarly discussion **The Amores** Ovid, 2016-08-09 Ovid was a major Roman poet during the reign of Augustus Ovid along with Horace and Virgil helped form Latin literature as the world came to know it Ovid's most famous works are The Metamorphoses and his collections of love poetry The Amores is Ovid's first book of poetry Written in elegiac couplets the book details the humorous pursuit of a higher class girl named Corinna *Ovid: Amores, Metamorphoses Selections, 2nd Edition* Charbra Adams Jestin, Phyllis B. Katz, 2000-01-01 Introduction to Ovid and to each selection Latin text based on Loeb text by Goold Met 1 452 567 IV 55 166 VIII 183 235 VIII 616 724 X 238 297 and Oxford text by Kenney Amores I 1 I 3 I 9 I 11 I 12 III 15 Translation Questions and **Amores** Ovid, 1991-06 Contains a continuous running commentary suited to short poems This book contains the commentary to promote in sixth formers and undergraduates not just an understanding of the Latin but also an appreciation of literary quality Ovid, Amores (Book 1) William Turpin, 2016-05-15 From Catullus to Horace the tradition of Latin erotic poetry produced works of literature which are still read throughout the world Ovid's Amores written in the first century BC is arguably the best known and most popular collection in this tradition Born in 43 BC Ovid was educated in Rome in preparation for a career in public services before finding his calling as a poet He may have begun writing his Amores as early as 25 BC Although influenced by poets such as Catullus Ovid demonstrates a much greater awareness of the funny side of love than any of his predecessors The Amores is a collection of romantic poems centered on the poet's own complicated love life he is involved with a woman Corinna who is sometimes unobtainable sometimes compliant and often difficult and domineering Whether as a literary trope or perhaps merely as a human response to the problems of love in the real world the principal focus of these poems is the poet himself and his failures foolishness and delusions By the time he was in his forties Ovid was Rome's most important living poet his Metamorphoses a kaleidoscopic epic poem about love and hatred among the gods and mortals is one of the most admired and influential books of all time In AD 8 Ovid was exiled by Augustus to Romania for reasons that remain obscure He died there in AD 17 The Amores were originally published in five books but reissued around 1 AD in their current three book form This edition of the first book of the collection contains the complete Latin text of Book 1 along with commentary notes and full vocabulary Both entertaining and thought provoking this book will provide an invaluable aid to students of Latin and general readers alike This book contains embedded audio files of the original text read aloud by Aleksandra Szypowska **Ovid - The Amores, Or Amours** Ovid, 2019-07-10 Publius Ovidius Naso but better known to us as simply Ovid was born on 20th March 43 BC in Sulmo modern day Sulmona in Italy He was educated in rhetoric in Rome in preparation for the practice of Law Accounts of his

character say that he was emotional and not able to stay within the argumentative boundaries of rhetoric discipline After the early death of his brother Ovid ceased his law studies and travelled to Athens Asia Minor and Sicily He held a number of minor public posts but around 29 25 BC began to pursue poetry a decision that brought with it his father's disapproval He married three times and divorced twice by the time he was thirty years old He fathered a daughter who eventually bore him grandchildren His last wife was connected to the influential gens Fabia an ancient Roman patrician family and would help him during his later exile The first decades of Ovid's literary career were mostly spent writing poetry with erotic themes The chronology of these early works cannot however be relied upon His earliest extant work is thought to be the *Heroides* letters of mythological heroines to absent lovers which is believed to have been published in 19 BC The first five book collection of the *Amores* erotic poems addressed to a lover Corinna is believed to have been published in 16 15 BC The surviving three book version appears to have been published c 8 3 BC Between these two editions of the *Amores* his tragedy *Medea* which was much admired in antiquity but is no longer extant was performed Ovid buoyed by his glowing reputation now increased the tempo of his writing *Medicamina Faciei* was followed by the *Ars Amatoria* the Art of Love and immediately followed by *Remedia Amoris* This body of elegiac erotic poetry saw Ovid cited as the equal of the Roman elegists Gallus Tibullus and Propertius By AD 8 he had completed his most ambitious work the *Metamorphoses* a 15 book hexameter epic poem It catalogued Greek and Roman mythology from the emergence of the universe to the apotheosis of Julius Caesar Concurrent with this he worked on the *Fasti* planned as 12 books but only 6 volumes January to June were completed in elegiac couplets on the calendar of Roman festivals and astronomy were completed The remaining six books were interrupted by Ovid's sentence to exile In AD 8 Ovid was banished to Tomis on the Black Sea by the Emperor Augustus This event shadowed his life and shaped his remaining poetic output Ovid wrote that his exile was for *carmen et error* a poem and a mistake claiming his crime was worse than murder more harmful than poetry Ovid was also a contemporary of the older Virgil and Horace with whom he is often ranked as one of the three canonical poets of Latin literature The Imperial scholar Quintilian considered him the last of the Latin love elegists His poetry was much imitated during Late Antiquity and the Middle Ages and greatly influenced Western art and literature The *Metamorphoses* remains one of the most important sources of classical mythology In exile Ovid wrote *Tristia* and *Epistulae ex Ponto* pointedly focused on his sadness and desolation He was far from Rome and his beloved third wife The five books of the elegiac *Tristia* a series of poems expressing the poet's despair in exile and advocating his return to Rome are dated to AD 9 12 The *Ibis* an elegiac curse poem attacking an adversary at home is also dated to this period The *Epistulae ex Ponto* a series of letters to friends in Rome asking them to effect his return are thought to be his last compositions Ovid died at Tomis in AD 17 or 18 It is thought that the *Fasti* which he spent time revising were published posthumously
