## Own Goal:

*Armitage Shanks and the Footballer's Bones* John Larkin, 2012-04-01 The Wildcats are in trouble again Down on the ground there's got to be some way of raising funds and their coach comes up with health food bars Only trouble is they're inedible and whoever sells the most gets an all expenses paid trip to Canberra Up in the air though Splinters and Nuke are on their way to London to retrieve their best player Gazza who's been deported back to England with her mum and the two boys get up to the sort of in flight antics that have made travelling footballers notorious Grappling as always with the problem of how to make up the numbers someone remembers a genius footballer called Armitage Shanks who registered for the Under 6s but never turned up for training or played a single game Then the obvious question how do you know he was a genius And to Splinters the equally obvious answer he had great boots But when Armitage Shanks turns up it's a bigger surprise than the Wildcats have bargained for A crazy adventure with an unexpectedly moving conclusion this is one of John Larkin's funniest books in the series but it also offers a little insight into success and fame

**Complex Interpersonal Conflict Behaviour** Evert Van der Vliert, 2013-05-24 This book is about reactions to interpersonal conflict such as avoiding negotiating and fighting It breaks away from the prevailing assumption that conflict behaviours are mutually isolated reactions having mutually isolated effects Instead reactions are viewed as components of complex conflict behaviour that influence each other's impact on the substantive and relational outcomes The simultaneous and sequential occurrence of for example problem solving and fighting should therefore be studied together and not separately The author presents a ladder of stepwise increases in theoretical quality and designs the sequence of chapters in such a way that the theoretical value increases step by step The lower steps lead to the description of behavioural components and to a model of integrative and distributive dimensions The upper steps lead to the dimensions of dual concern for one's own and the other's goals and to complexity explanations in terms of the novel paradigm of conglomerated conflict behaviour The chapters are summarised into thirty four interrelated propositions Six empirical studies demonstrate the validity of crucial propositions at each level of the theoretical framework This monograph primarily reaches out to an academic readership However due to its clear

structure its comprehensive propositions its frequent use of figures and its glossary the book will also provide an invaluable resource for any student and practitioner interested in conflict management and negotiation **Rationality and Commitment** Fabienne Peter,Hans Bernhard Schmid,2007-12-13 Rational choice theory forms the core of the economic approach to human behaviour It is also the most influential philosophical account of practical rationality Yet there are persistent controversies about the scope of rational choice theory in philosophy and increasingly in economics as well A leading critic is the philosopher and Nobel Laureate economist Amartya Sen who put forward a trenchant critique of rational choice theory in his seminal paper Rational Fools Sen emphasizes the importance of commitment those aspects of human behavior which dispose individuals to co operate follow norms and identify with others He argues that rational choice theory cannot accommodate commitment and demands a more adequate account of rationality The question of how to account for the rationality of commitment is very much an open issue and if anything even more pressing today than when Sen first raised it In Rationality and Commitment thirteen leading philosophers and economists discuss Sen s claims and propose their own answers to the question of how to account for the rationality of committed action The volume concludes with a specially written reply by Sen in which he responds to his critics and provides a rich commentary on the preceding essays
