FY2026-FY2028 Medium-Term Budget International Monetary Fund. Office of Budget and Planning, 2025-05-02 The global economy has proven resilient in the post pandemic period with global disinflation continuing but with significant remaining uncertainty. This backdrop and transformations in the economic landscape are driving strong demand for Fund engagement. The proposed budget is guided by the longstanding principle of budget prudence. Notwithstanding a modest proposed structural top up to supplement critical cybersecurity related needs overall net resourcing to departments will decline given ongoing unwinding of temporary pandemic era resources. Evidence-Based Nursing Care Guidelines - E-Book Betty J. Ackley, Gail B. Ladwig, Beth Ann Swan, Sharon J. Tucker, 2007-12-18 This groundbreaking reference created by an internationally respected team of clinical and research experts provides quick access to concise summaries of the body of nursing research for 192 common medical surgical interventions. Each nursing care guideline classifies specific nursing activities as Effective, Possibly Effective, or Possibly Harmful, providing a bridge between research and clinical practice. Ideal for both nursing students and practicing nurses, this evidence based reference is your key to confidently evaluating the latest research findings and effectively applying best practices in the clinical setting. Synthesizing the current state of research evidence, each nursing care guideline classifies specific activities as Effective, Possibly Effective, Not Effective, or Possibly Harmful. Easy to recognize icons for each cited study help you differentiate between findings that are based on nursing research, NR, multidisciplinary research, MR, or expert opinion, EO, or those activities that represent established standards of practice, SP. Each nursing activity is rated by level of evidence, allowing you to gauge the validity of the research and weigh additional evidence you may encounter. Guidelines are identified by NIC intervention labels wherever appropriate and NOC outcome measurements are incorporated throughout. An Evolve website provides additional evidence based nursing resources.
