**Playing with the Guys** Marc A. Ouellette, 2021-06-11 A lot of work has been done talking about what masculinity is and what it does within video games but less has been given to considering how and why this happens and the processes involved This book considers the array of daily relationships involved in producing masculinity and how those actions and relationships translate to video games Moreover it examines the ways the actual play of the games maps onto the stories to create contradictory moments that show that while toxic masculinity certainly exists it is far from inevitable Topics covered include the nature of masculine apprenticeship and nurturing labor fatherhood the scapegoating of women and reckoning with mortality among many others The World of Scary Video Games Bernard Perron, 2018-05-31 As for film and literature the horror genre has been very popular in the video game The World of Scary Video Games provides a comprehensive overview of the videoludic horror dealing with the games labelled as survival horror as well as the mainstream and independent works associated with the genre It examines the ways in which video games have elicited horror terror and fear since Haunted House 1981 Bernard Perron combines an historical account with a theoretical approach in order to offer a broad history of the genre outline its formal singularities and explore its principal issues It studies the most important games and game series from Haunted House 1981 to Alone in the Dark 1992 Resident Evil 1996 present Silent Hill 1999 present Fatal Frame 2001 present Dead Space 2008 2013 Amnesia the Dark Descent 2010 and The Evil Within 2014 Accessibly written The World of Scary Video Games helps the reader to trace the history of an important genre of the video game
