Me My Million:

Self-Made Maverick Reza Zahedi, 2025-09-02 The boldest entrepreneurs build empires while others follow the rules Most people who call themselves entrepreneurs are just playing business following the same tired formulas that lead to predictable ordinary results Real success the kind that builds wealth power and lasting impact doesn't come from following the rules It comes from breaking them In *Self Made Maverick* Dr Reza Zahedi a leading figure in international real estate delivers a powerful manifesto for those who refuse to settle Too many entrepreneurs believe that success requires a massive start up budget an ironclad business plan and years of experience But that's a lie Lasting self made success comes from thinking differently seizing opportunities and embracing the unconventional path Drawing from real world experience Dr Zahedi reveals what it truly takes to build a business from the ground up without following someone else's blueprint Through raw personal insights practical exercises and lessons from his own seven figure businesses he provides the tools you need to create success on your own terms This isn't a book about fitting in it's about standing out If you're ready to challenge outdated beliefs think like a true entrepreneur and build a legacy beyond limits *Self Made Maverick* is your ultimate guide

Off the Rails Matt Jones, 2007-04 Many years ago a highly intelligent race of people living in China discovered a fault with the Earth's natural orbital trajectory which if left unresolved would result in the world ending in the mid twenty first century The leaders of these people whilst travelling the world in search of a solution to the problem arrived in London Here they stumbled on the theory that if they created vast but subtle movements across the Earth's surface then such weight shifts would have a reasonable bearing on the rate at which the Earth rotates and thus would alter its orbital path To provide this weight a project named Commuters was created so called due to a misprint of Computers This was performed by building a railway infrastructure throughout the land and simultaneously inventing a large number of excitingly named well paid but virtually harmless jobs This created both the demand and the mechanism for many people to travel in the same direction at a given time of day The group of pioneers were adamant that the real reason for their work should not be made public yet at the same time the project needed to be monitored To satisfy this an organisation called the Littlepeople was created whereby those directly involved with the project took invisible jobs within society From these positions they could easily observe their work without fear of detection themselves They therefore occupied jobs that are commonly labelled working class or unskilled as they were unlikely to be noticed by the Commuters within these positions Pardon My Millions John Nash, 1948 China's Millions, 1900 *The Balanced Entrepreneur* Jessica Dennis, 2019-05-23 *The Balanced Entrepreneur* A Guide to Creating a Purposeful Life and Living it Unapologetically is an inspirational manual for entrepreneurs from beginners to seasoned business owners on how to live their best lives without qualification The *Balanced Entrepreneur* establishes a new paradigm for implementing balance in the lives of those who try to do it all work family and the pursuit of wellness in the midst of life's hiccups Readers will learn practical tips including everything from business application to the
