Children, Childhood, and Musical Theater Donelle Ruwe, James Leve, 2020-02-19  
 Bringing together scholars from musicology literature childhood studies and theater this volume examines the ways in which children's musicals tap into adult nostalgia for childhood while appealing to the needs and consumer potential of the child  
 The contributors take up a wide range of musicals including works inspired by the books of children's authors such as Roald Dahl P L Travers and Francis Hodgson Burnett created by Rodgers and Hammerstein Lionel Bart and other leading lights of musical theater or conceived for a cast made up entirely of children  
 The collection examines musicals that propagate or complicate normative attitudes regarding what childhood is or should be  
 It also considers the child performer in movie musicals as well as in professional and amateur stage musicals  
 This far ranging collection highlights the special place that musical theater occupies in the imaginations and lives of children as well as adults  
 The collection comes at a time of increased importance of musical theater in the lives of children and young adults
