Michael A. Weinstein Robert L. Oprisko,Diane Rubenstein,2014-12-05 This book is a major reassessment of Michael Weinstein s political philosophy It situates his singular contribution designated as critical vitalism in the context of both canonical American and contemporary continental theory Weinstein is presented as a philosopher of life and as an American Nietzsche Yet the contributors also persuasively argue for this form of thinking as a prescient prophecy addressing contemporary society s concern over the management of life as well as the technological changes that both threaten and sustain intimacy This is the first full scale study of Weinstein s work which reveals surprising aspects of a philosophic journey that has encompassed most of the major American pragmatic or vitalist or Continental phenomenological or existential traditions Weinstein is read as a comparative political theorist a precursor to post structuralism and as a post colonial border theorist A different aspect of his oeuvre is highlighted in each of the book s three sections The opening essays comprising the Action diptych contrasts meditative versus extrapolative approaches Contemplation stages a series of encounters between Weinstein and his philosophic interlocutors Vitalism presents Weinstein as a teacher media analyst musician and performance artist The book contains an epilogue written by Weinstein in response to the contributors The Temporality

of Political Obligation Justin C. Mueller,2015-12-22 The Temporality of Political Obligation offers a critique and reconceptualization of the ways in which our political obligations what we owe to political authorities and communities and the reasons why we ought to obey their rules have been traditionally conceptualized justified and contested Drawing from theories of time and temporality Justin Mueller demonstrates some of the unacknowledged assumptions and theoretical blind spots shared among these ostensibly opposed positions and the problems and contradictions that this neglect of time poses Enriching the literature on the philosophers Henri Bergson and Gilles Deleuze Mueller demonstrates how their theoretical frameworks on time can be used to analyze a political problem that is usually confined to the concerns of normative liberal democratic theory Politically this book provides readers with the means to better identify and analyze the diverse temporalities they encounter in everyday life and better understand their experiences of them A welcomed and timely read which will be of interest to scholars involved in recent efforts to engage with the social and political dimensions and consequences of time and temporality **Meaning and Appreciation** Michael A. Weinstein,1978 The great crisis of

twentieth century philosophy has been the loss of meaning as a criterion for conduct With the collapse of the historical sociologies of the nineteenth century and their replacement by relativistic doctrines contemporary thought has retreated to

the fleeting present moment as the ground for describing action In *Meaning and Appreciation* Michael Weinstein traces the history of the failure of historical meaning showing how the disappearance of collective purpose has altered our sense of time and made us aware that we are the creators of our time perspectives Drawing upon the vitalistic tradition of Bergson Weinstein returns to the intuition of the *durée* and argues that beneath practical life we are rooted in successive lived presents Weinstein identifies the lived present with appreciation arguing that the life of expression not nihilism lies beyond the wreckage of historical teleology The climax of Weinstein's work is an original vision of human existence in which our essence is to express one another to ourselves Vindicating our intrinsic sociality against the abstract and mechanistic claims of both individualism and collectivism the author argues that our destiny is not to project meanings into a symbolic future but to attend to and care for one another in the present Weinstein's sensitive analysis offers new insights into such contemporary movements as existentialism the sociology of knowledge and cultural philosophy evaluating all of them in terms of the fundamental tension in our society
