Meaning Of Life:

The Meaning of Life Terry Eagleton, 2007-02-22 Famed critic Terry Eagleton takes a serious if often amusing look at the meaning of life. Eagleton first examines how centuries of thinkers and writers from Marx and Schopenhauer to Shakespeare, Sartre and Beckett have responded to the ultimate question of meaning. He suggests, however, that it is only in modern times that the question has become problematic. But instead of tackling it head on, many of us cope with the feelings of meaninglessness in our lives by filling them with everything from football to fundamentalism. He argues instead that the meaning of life is a matter of living in a certain way, a certain quality, depth, abundance, and intensity of life. **Meanings of**

Life Roy F. Baumeister, 1991-01-01 Who among us has not at some point asked what is the meaning of life? In this extraordinary book, an eminent social scientist looks at the big picture and explores what empirical studies from diverse fields tell us about the human condition. **MEANINGS OF LIFE** draws together evidence from psychology, history, anthropology, and sociology, integrating copious research findings into a clear and conclusive discussion of how people attempt to make sense of their lives. In a lively and accessible style, emphasizing facts over theories, Baumeister explores why people desire meaning in their lives, how these meanings function, what forms they take, and what happens when life loses meaning. It is the most comprehensive examination of the topic to date. Meaning in Life Irving Singer, 1992 The nearest thing to a rational discernment of meaning in life, Irvin Singer suggests, is the discernment of goals and values that we can find gratification and fulfillment in pursuing. He offers wise counsel to that end, along with rewarding glimpses into a wide range of literature.

What is this thing called The Meaning of Life? Stewart Goetz, Joshua W. Seachris, 2020-04-06 What are we asking when we ask, "What is the meaning of life?" Can there be meaning without God? Is a happy life a meaningful life? Can an immoral life be meaningful? Does our suffering have meaning? Does death threaten meaning? What is this thing called "The Meaning of Life"? This book provides an engaging and stimulating introduction to philosophical thinking about life's meaning. Goetz and Seachris provide the reader with accessible examples before looking at the main theoretical approaches to meaning and key philosophers associated with them. Topics covered include: What does the question "What is the meaning of life?" even mean? Does life have a purpose? What is valuable? Do we matter? Does life or my life make any sense? Is there any meaning in suffering? Does death threaten meaning? Would immortality be good or bad news for us? With boxed summaries of key concepts and noteworthy examples, discussion questions, and suggestions for further reading included within each chapter, this book is the ideal introduction to life's meaning for philosophy students coming to the subject for the first time. *The Meaning of Life* John Gerard Messerly, 2012 *The Meaning of Life: Religious, Philosophical, Transhumanist, and Scientific Perspectives* is the first book to summarize the writings of the important contemporary theologians, philosophers, and scientists on the question of the meaning of life. In addition, the book deals with the relevance of death for the question, as well as the huge importance that the potential scientific elimination of death will have for humanity's concern regarding meaning. Finally, the book considers the

question in the context of cosmic evolution and deep time offering in the end an answer to the question of whether life is or is not ultimately meaningful

Introduction

Meaning in Life and Why It Matters Susan Wolf, 2010-03-01 A fresh reflection on what makes life meaningful Most people including philosophers tend to classify human motives as falling into one of two categories the egoistic or the altruistic the self interested or the moral According to Susan Wolf however much of what motivates us does not comfortably fit into this scheme Often we act neither for our own sake nor out of duty or an impersonal concern for the world Rather we act out of love for objects that we rightly perceive as worthy of love and it is these actions that give meaning to our lives Wolf makes a compelling case that along with happiness and morality this kind of meaningfulness constitutes a distinctive dimension of a good life Written in a lively and engaging style and full of provocative examples *Meaning in Life and Why It Matters* is a profound and original reflection on a subject of permanent human concern

Meaning in Life Thaddeus Metz, 2016-01-03 What makes a person's life meaningful Thaddeus Metz offers a new answer to an ancient question which has recently returned to the philosophical agenda He proceeds by examining what if anything all the conditions that make a life meaningful have in common The outcome of this process is a philosophical theory of meaning in life He starts by evaluating existing theories in terms of the classic triad of the good the true and the beautiful He considers whether meaning in life might be about such principles as fulfilling God's purpose obtaining reward in an afterlife for having been virtuous being attracted to what merits attraction leaving the world a better place connecting to organic unity or transcending oneself by connecting to what is extensive He argues that no extant principle satisfactorily accounts for the three fold significance of morality enquiry and creativity and that the most promising theory is a fresh one according to which meaning in life is a matter of intelligence contoured toward fundamental conditions of human existence
