Meant To Marry:

The Marriage Question, Or, The Lawfulness of Marrying the Sister of a Deceased Wife Parsons Cooke, 1842

Munsey's Weekly, 1922

Human Mating Patterns C. G. N. Mascie-Taylor, Anthony J. Boyce, 1988-12-15

This book examines the causes and consequences of different mating patterns in man with particular reference to historical biological medical and demographic factors Each of these reference points are covered in carefully edited and integrated papers for advanced students and research workers in human biology and genetics

Marriage, Sexuality, and Gender Robin West, 2015-12-03 Marriage Sexuality and Gender examines contemporary debates about the meaning and value of marriage The book analyzes arguments for traditional marriage including those of neonaturalists utilitarians and communitarians or virtue theorists The volume also considers a range of feminist welfarist and liberationist arguments for ending the institution altogether It evaluates two major reform movements one focused on expanding marriage to include same sex couples and the other focused on the use of law to render marriage more internally just The book concludes with a plea to activists to redirect marriage equality movements toward the creation of an entirely secular civil union law that would respect a broader range of private life long commitments including but not limited to same and opposite sex couples without threatening the role of religious marriage in the lives of those who embrace it and without penalizing nonparticipants
