Market Wedding:

Wedding marketing as ethnically specific event marketing Ergün Kalayci, 2025-09-30 Ergün Kalayci opens a window into wedding marketing in Turkish event halls in Germany in this book. He navigates the complex waters of service ethnic and event marketing to outline a marketing strategy aimed at increasing customer satisfaction and economic profitability. Through a carefully designed mixed methods approach, the author examines the different market segments for Turkish event halls and categorizes customer preferences into clear segments. These insights serve as a key to understanding the relationships between customer demands, event design, and customer satisfaction, offering concrete starting points to improve the event experience. The analysis emphasizes the importance of diversifying business concepts, especially in the context of the COVID-19 crisis. It not only provides innovative insights into the fields of ethnic marketing and wedding marketing but also delivers practical guidance for improving marketing strategies for Turkish event halls in Germany, thereby representing a valuable resource for academic research as well as practical implementation in the area of event hall management.

White Weddings Chrys Ingraham, 2009-09-10 This is a groundbreaking study of our culture's obsession with weddings. By examining popular films, commercials, magazines, advertising, television sitcoms, and even children's toys, this book shows the pervasive influence of weddings in our culture and the important role they play in maintaining the romance of heterosexuality, the myth of white supremacy, and the insatiable appetite of consumer capitalism. It examines how the economics and marketing of weddings have replaced the religious and moral view of marriage. This second edition includes many new and updated features, including full coverage of the wedding industrial complex, gay marriage, and its relationship to white weddings and heterosexuality, and demographics shifts as to who is marrying whom and why nationally and internationally.

Managing Services Alan Nankervis, Yuki Miyamoto, Ruth Taylor, John Milton-Smith, 2005-10-27 The rapid increase in global services during the last few decades is without doubt one of the most challenging social, cultural, political, and especially economic forces of our time. Services have supplanted agriculture, manufacturing, and resources as the primary source of international competitive advantage in many countries, providing wealth, employment, and almost unlimited future opportunities for growth, whether in traditional or more innovative forms. This book explores the strategic management of services through an Integrated Services Management Model, which links operational, marketing, financial, and human resource management functions within a broad and diverse collection of international, regional, and local service contexts. It contains numerous case examples, student projects, and exercises designed to illustrate common problems and innovative approaches, with a particular focus on the Asia Pacific and Australasian regions.
