Marketing High Technology William H. Davidow, 1986-06-02 Marketing is civilized warfare And as high tech products become increasingly standardized practically identical from the customer's point of view it is marketing that spells life or death for new devices or entire firms In a book that is as fascinating as it is pragmatic William H Davidow a legend in Silicon Valley where he was described as the driving force behind the micro processor explosion tells how to fight the marketing battle in the intensely competitive world of high tech companies and win Blunt pithy and knowledgeable Davidow draws on his successful marketing experience at Intel Corporation to create a complete program for marketing victory He drives home the basics such as how to go head on against the competition how to plan products not devices how to give products a soul and how to engineer promotions market internationally motivate salespeople and rally distributors Above all he demonstrates the critical importance of servicing and supporting customers Total customer satisfaction Davidow makes clear must be every high tech marketer's ultimate goal The only comprehensive marketing strategy book by an insider Marketing High Technology looks behind the scenes at industry shaking clashes involving Apple and IBM Visicorp and Lotus Texas Instruments and National Semiconductor He recounts his own involvement in Crush Intel's innovative marketing offensive against Motorola to demonstrate step by step how it became an industry prototype for a winning high tech campaign Davidow clearly spells out sixteen principles which increase the effectiveness of marketing programs From examples as diverse as a Rolling Stones concert and a microprocessor chip he defines a true product He analyzes and explains in new ways the strategic importance of distribution as it relates to market sector pricing and the pitfalls it entails He challenges some traditional marketing theory and provides unique and important insights developed from over twenty years in the high tech field From an all encompassing philosophy that great marketing is a crusade requiring total commitment to a careful study of the cost of attacking a competitor this book is an essential tool for survival in today's high risk fast changing and very lucrative high tech arena

Marketing High Technology William L. Shanklin, 1984 **Strategic Marketing for High Technology Products** Thomas Fotiadis, 2018-05-08 In order for High Technology HT companies to tackle contemporary demanding market challenges they frequently deploy time reduction strategies with respect to product launch Marketing of technology related products and especially cutting edge ones involves a complex and multidimensional bundle of specific and unique characteristics such as the complexity of products the intensity of the competition confusion and or fear of adoption among

consumers fast pacing changes in the external environment The very nature of the interrelations that evolve as part of the dynamic process of strategy formulation contributes further to the formulation of a very challenging environment which is described as tumultuous volatile and turbulent These specific features qualities and characteristics constitute the core of the innate need for an integrated approach that requires and depends on the cooperation and coordination of specific functional competencies This book employs a systemic approach that accommodates the integration of specialized departmental capabilities as a fundamental prerequisite and a cornerstone for the successful navigation of high tech organizations in their extremely competitive environments It provides a solid and extant context of compact and consistent cognitive background that is specific to the HT strategic marketing field and a strategic tool that utilizes relies and is built on the turbulent environment of HT rather than just overlooking avoiding or ignoring it and that assumes a proactive point of view capitalizing on characteristics specific to this field through the provision of a strategic managerial and marketing model that is overlaid onto a reliably assessed foundation of dynamic qualities with a long term orientation and scope albeit one that would be easy to apply and which will generate immediate results *E-Marketing* K & A Press,2002 **Marketing High Technology**

Services Colin V Sowter,2018-02-06 This title was first published in 2000 An examination of how marketing concepts and practices can be applied to generate profitable growth in the high tech service sector Part One looks at the implications of becoming market led Part Two explains how to use the various methods of communication to best effect Finally Part Three examines the role of business development including research innovation and planning Along the way Dr Sowter provides detailed guidance on key issues such as identifying your unique selling proposition setting optimal prices dealing with competition and ensuring the maximum impact from your promotional literature proposals and exhibition stands He proceeds by asking questions and the answers he supplies are practical and often based on personal experience The text is supported throughout by illustrations real life examples checklists and model formats Each chapter includes exercises and action plans to help readers put the author s ideas to work in their own organizations **Marketing high technology** Collier

Brown,1985 *Entrepreneurs in High Technology* Edward B. Roberts,1991-08-22 The ingredients for success in starting

and developing a technology based company aren t obvious Why for example did Digital Equipment Corporation succeed and

indeed become one of the most successful high tech corporations in the world while dozens of other companies with similar

beginnings fail It is a question that demands careful consideration by anyone setting up a new company or who is interested

in starting one In *Entrepreneurs in High Technology* Edward Roberts a Professor at the MIT Sloan School of Management

offers entrepreneurs a goldmine of information on starting financing and expanding a high tech firm His book reveals the

results of research conducted over twenty five years on several hundred high tech firms and it reflects the insights of the

author s own first hand experience as a company founder director and venture capitalist Focusing on firms in the Greater

Boston area many of which have had technological links with MIT Roberts traces the origins and the evolution of the high

technology failures and successes He examines the work experience and family backgrounds of successful technical

entrepreneurs their sources of funding and the ways they respond to the challenge of business growth He compares the track

records of firms with multi founder teams and firms with individual founders contrasts the performance of consulting firms

and research and development contractors against companies that start out with a product identifies the factors that limit an

enterprise s ability to raise outside capital and explores the critical influence of marketing orientation on successful

companies In a penetrating analysis of highly successful ventures the author reveals the importance of strategically

transforming the company to a market oriented focus and he examines the widespread tendency even among the most

successful high tech firms to displace the founder before the company achieves super success For anyone planning to start a

technology based enterprise *Entrepreneurs in High Technology* is essential reading an invaluable preview of the financial

organizational and marketing issues that confront every new high tech venture For business and technology watchers it is an

informative account of the promise and the perils entailed in bringing innovative ideas to the marketplace *Successful*
