## **Pagets Disease Of Bone:**

**Paget's Disease of Bone** Hugh C. Barry,1959    Paget's Disease of Bone Frederick Singer,1977-05 Paget's disease is an old disease historically but a new disease therapeutic ally Human remains unearthed in Lancashire England dating from approximately 900 AD show clear evidence of the affliction However it was not until the 1800s that physicians rediscovered the condition and a little more than 100 years ago that Sir James Paget published a perceptive and accurate description of the disease from the clinical and pathologic points of view He felt the disease represented an inflammatory condition of the skeleton and hence named it osteitis deformans The condition again lapsed into anonymity for several decades afterwards and therapeutic approaches did not evolve until after World War II when several groups located mainly in the Boston area began using a variety of agents including corticosteroids for treatment of this condition These early attempts at therapy were unsuccessful and the condition remained essentially untreatable until the development of the calcitonins and the bisphosphonates in the 1970s In 1978 the Paget's Disease Foundation a private nonprofit voluntary health agency was founded to assist individuals afflicted by Paget's disease of bone to provide education regarding this condition to the medical community and to encourage research efforts to better understand and treat the condition An international conference was organized under the aegis of the Paget's Disease Foundation and was held in New York City in October 1989 ten years after the founding of the Paget's Disease Foundation
