election year and as a young progressive in California who has been raised by equally progressive parents he is very much concerned with the political issues currently being discussed in the mass media A chance encounter with a fellow graduate named Kelly Kelso however shakes up his settled view of the world He is challenged to examine the rising number of alternatives to the two party system presented by third party movements such as the Libertarian Party and the Green Party and is forced to acknowledge that there is far more to politics than simply Democrat versus Republican and liberal versus conservative Thomas delves energetically into not only the growing Libertarian movement but the free market perspective of the Austrian School of economics as well as the rigid yet compelling view of Ayn Rand's philosophy of Objectivism His explorations grow wider now encompassing the Tea Party movement and the Christian Right tax resisters and gun rights advocates survivalists and militia members anarchists communists and Democratic Socialists as well as the Occupy Wall Street movement He debates the radical environmental views of animal welfare and animal rights advocates and challenges opponents of corporate globalism as well as deniers of global warming as he struggles to reformulate and articulate his own developing beliefs while coping with a sea of conflicting ideas and opposition But this abstract political theory is brought into sharp encounter with concrete political reality when Thomas hears a news report of an armed conflict with authorities taking place just outside of town involving someone with whom he has become emotionally involved The 9/11 Commission Report David Ray Griffin,2005 An analysis of the 9 11 Commission report argues that the Commission supported an officially sanctioned conspiracy theory while ignoring alternative explanations and charges that Commission members had conflicts of interest due to ties to the FBI and Department of Justice *9/11 and American Empire, Volume 1* David Ray Griffin,Peter Dale Scott,Kevin Barrett,John B. Cobb,Sandra B. Lubarsky,2007 Were the military and the FAA really that incompetent Were our intelligence gathering agencies really in the dark about 9 11 How could so much go wrong at once in the world's strongest and most technologically sophisticated country Both the government and the mainstream media have tried to portray the 9 11 truth movement as led by people who can be dismissed as conspiracy theorists This volume shows this caricature to be untrue Coming from different academic disciplines as well as from different parts of the world the authors are united In the conviction that the official story about 9 11 is a huge deception manufactured to extend Imperial control at home and abroad Enemies by Design Greg Felton,2005 An Arab proverb has it Whom the gods would destroy they first drive mad Empires do the same Through the lens of a life of bin Laden we follow the US UK footprint on the Arab world fostering reactionary regimes to divide and conquer forging pretexts to invade Iraq Afghanistan Palestine and falling prey to a corrupt cult of violence and obscurantism called fascism In war the gods themselves go mad George W Bush's war on terrorism is a folly committed in the name of a foreign state's self interest That state is Israel How the U S became an instrument of Israeli foreign policy and how this subordination is responsible for the official bigotry toward Arabs and Muslims is the main theme of this book Only from this perspective can the war on terrorism be fully understood

Newsweek ,2004    **The New York Times Magazine** ,2004    *The Syndicate* Nicholas Hagger,2004 This highly topical and controversial work provides an alternative view of 20th century history It describes the activities of a small group of men whose wealth and influence have been grossly underestimated It gives the background to the war on terror and points out the dangers in the increasing trend towards world government    *Business Week* ,2004    **The 9/11 Commission: Proceedings and Analysis** James Holbein,2005-01-30 In the years since the terrorist attacks of 9 11 government officials industry experts and interested citizens have sought to understand what happened why it happened and how we can prevent anything similar from ever happening again Now in four volumes readers and researchers can read for themselves the complete unabridged testimony of the hearings held by the National Commission on Terrorist Attacks Upon the United States and draw their own conclusions Each of the twelve hearings is summarized as is each person s testimony making it easy to find relevant passages Specific coverage of each hearing includes a summary of remarks made and issues raised during the hearings and in official statements biographies of the witnesses testifying before the commission and official statements filed by key witnesses    *Свободная мысль..* ,2008    Избранные статьи, 2005-2009 гг Институт экономики (Москва),2010
