Consuming Grief Beth A. Conklin,2010-01-10 Mourning the death of loved ones and recovering from their loss are universal human experiences yet the grieving process is as different between cultures as it is among individuals As late as the 1960s the Wari Indians of the western Amazonian rainforest ate the roasted flesh of their dead as an expression of compassion for the deceased and for his or her close relatives By removing and transforming the corpse which embodied ties between the living and the dead and was a focus of grief for the family of the deceased Wari death rites helped the bereaved kin accept their loss and go on with their lives Drawing on the recollections of Wari elders who participated in consuming the dead this book presents one of the richest most authoritative ethnographic accounts of funerary cannibalism ever recorded Beth Conklin explores Wari conceptions of person body and spirit as well as indigenous understandings of memory and emotion to explain why the Wari felt that corpses must be destroyed and why they preferred cannibalism over cremation Her findings challenge many commonly held beliefs about cannibalism and show why in Wari terms it was considered the most honorable and compassionate way of treating the dead *"Race" and Racism* R. Perry,2007-10-15 Race and Racism examines the origins and development of racism in North America It addresses the inception and persistence of the concept of race and discusses the biology of human variance addressing the fossil record of human evolution the relationship between creationism and science population genetics race based medicine and other related issues The book explores the diverse ways in which people in a variety of cultures have perceived categorized and defined one another without reference to any concept of race It follows the history of American racism through slavery the perceptions and treatment of Native Americans Jim Crow laws attitudes toward Irish and Southern European immigrants the internment of Japanese Americans during World War II the civil rights era and numerous other topics *Ritual and Belief* David Hicks,2010-03-15 Ritual and Belief Readings in the Anthropology of Religion is a collection of 41 readings in religion magic and witchcraft The choice of readings is eclectic no single anthropological approach or theoretical perspective dominates the text Theoretical significance scholarly

eminence of the author and inherent interest provide the principal criteria and each reading complements its companion chapters which are pedagogically coherent rather than ad hoc assemblages Included among the theoretical perspectives are structural functionalism structuralism Malinowskian functionalism cultural materialism and cultural evolutionism also included are the synchronic and diachronic approaches The book offers a mixture of classic readings and more recent contributions and the world religions are included along with examples from the religions of traditionally non literate cultures As diverse a range of religious traditions as possible has been embraced from various ethnic groups traditions and places American Indian Quarterly ,1993 **CM** ,1990 Povos Indígenas no Brasil Carlos Alberto Ricardo,1983
