The God Within Emil Fackenheim, 1996-12-15

For nineteenth century thinkers the central problem of religious consciousness in the modern West was the tension between prevailing concepts of individual autonomy and the traditional Judaeo Christian claim for divine revelation. *The God Within* brings together ten of Professor Emil Fackenheim's essays on the German Idealists who struggled to resolve this tension. This philosophic preoccupation found its most searching and comprehensive expression when the traditional notion of God as Transcendent was reconceptualized as the God within. The internalization of God's otherness reached its climax with Hegel the subject of Fackenheim's earlier work *The Religious Dimension in Hegel's Thought*. This long awaited companion to that volume examines the earlier stages of the process beginning with its initiator Kant then considering Schelling in both his earlier and later phases and finally looking once more at Hegel. The investigation of this movement together with the related themes of history and the literary arts leads to reflection on the significance of taking historicity seriously. Included is the classic much cited article *Metaphysics and Historicity* which connects the philosophy of German Idealists to twentieth century questions of historicity and existential thought in particular. The previously unpublished essay *Schelling in 1800* 1801 *Art as Revelation* provides an overview of philosophical history from Kant through Fichte and Schleiermacher to the later Schelling. All the essays gathered here are concerned with the radical singularity of history and existence on the one hand and the demands of philosophical truth on the other. They are informed by Professor Fackenheim's engagement with the profound philosophical challenges of our day particularly his efforts as a Jewish theologian to confront the horrors of the Holocaust. We see through Fackenheim's exposition how these thinkers sought to come to terms with the presence of radical evil a problem whose modern relevance is explored in this volume's epilogue the 1988 essay *Holocaust and Weltanschauung*. *Philosophical Reflections on Why They Did It*. Metaphysics and historicity Emil L. Fackenheim, 1967 **Metaphysics and Historicity** Emil L. Fackenheim, 1961 Metaphysics, Historicity and Historicism Emil L. Fackenheim, 1965* *Kant and the Problem of Metaphysics* Martin Heidegger, 1962 Unfinished Man and the Imagination Ray L. Hart, 2001-01-01 *Unfinished Man and the Imagination* is a ground breaking foundational work in theological anthropology that was first published in 1968. Ray Hart is a highly original thinker who using theological and philosophical categories in imaginative ways provides a theological account of human being that may serve as the basis for an ontology of revelation.

Essays on Historicity Jan-Ivar Lindén, 2021-07-19 History stands not only for a narrative or descriptive relation to the past but also for an ongoing process in which we are involved on several levels in ordinary life as well as in our epistemic endeavours. natural science and technology included. Historicity is thus not only an important question for historians but for everyone.

interested in understanding what all our civilisation is about The present volume sheds some light on different aspects of this ontological dependence The first part deals with the historicity of understanding Fran oise Dastur Arbogast Schmitt Samuel Weber the second with the limits of making Emil Angehrn Nicholas Davey Jan Ivar Lind n and the third with the future of memory Jayne Svenungsson Christoph T rcke Bernhard Waldenfels **The Metaphysics of Love** Frederick D. Zuckert,2002 In this volume prominent political theorist Michael Zuckert presents an important and pathbreaking set of meditations on the thought of John Locke In more than a dozen provocative essays many appearing in print for the first time Zuckert explores the complexity of Locke s engagement with his philosophical and theological predecessors his profound influence on later liberal thinkers and his amazing success in transforming the political understanding of the Anglo American world At the same time he also demonstrates Locke s continuing relevance in current debates involving such prominent thinkers as Rawls and MacIntyre Zuckert s careful reconsideration of Locke s role as launcher of liberalism involves a sustained engagement with the hermeneutical issues surrounding Locke an innovator who faced special rhetorical needs in addressing his contemporaries and the future It also involves highlighting the novelty of Locke s position by examining his stance toward the philosophical and religious traditions in place when he wrote Zuckert argues that neither of the dominant ways of understanding Locke s relations to his predecessors and contemporaries is adequate he is not well seen as a follower of any orthodoxy nor of any anti orthodoxy of his day either philosophical or theological He found a path to innovation that was philosophically radical but which was also able to connect with prevailing and accepted traditions That allowed him to exercise a practical influence in history rarely if ever matched by any other philosopher Zuckert illustrates that influence by showing how William Blackstone used Lockean

philosophy to reshape the common law and how the Americans of the eighteenth century used Lockean philosophy to reshape Whig political thought Zuckert argues that Locke's philosophy has continuing philosophic and political force a proposition he demonstrates by arguing that Locke presents a form of political philosophy superior to that of the liberal theorists of our day and that he has solid rejoinders to contemporary critics of liberalism *New Queries in Aesthetics and Metaphysics* Anna-Teresa Tymieniecka, 2012-12-06 This collection is the final volume of a four book survey of the state of phenomenology fifty years after the death of Edmund Husserl Its publication represents a landmark in the comprehensive treatment of contemporary phenomenology in all its vastness and richness The diversity of the issues raised here is dazzling but the main themes of Husserl's thought are all either explicitly treated or else they underlie the ingenious approaches found here Time historicity intentionality eidos meaning possibility reality and teleology are the main concerns of this collection devoted to studies in aesthetics metaphysics and literary interpretation written by such authors as among others R Cobb Stevens C Moreno Marquez J Swiecinski Sitansu Ray and M Kronegger These original studies of phenomenological aesthetics and literary theory by scholars from all parts of the world were gathered by the World Institute for Advanced Phenomenological Research and Learning during the year 1988-89 during its assessment of the phenomenological movement fifty years after Husserl's death IX A T Tymieniecka ed *Analecta Husserliana Vol XXXVII ix* **Dante's Divinatory Hermeneutic** William Paul Franke, 1991 **St. Thomas and Historicity** Armand Augustine Maurer, 1979 **Truth and Historicity** Dr. Richard Campbell, 1992 In this scholarly but non technical book Campbell elucidates the concept of truth by tracing its history from the ancient Greek idea that truth is timeless unchanging and free from all relativism through the seventeenth century crisis which led to the collapse of that idea and then on through the emergence of historical consciousness to the existentialist sociological and linguistic approaches of our own time He gives a scholarly but vivid and economical exposition of the views of a remarkably wide range of thinkers always showing how their ideas engage with our contemporary concerns He argues that current problems with truth arise from the way differing past conceptions continue to resound in our contemporary use of the word and suggests that we must formulate a new conception of truth that is compatible with awareness that human existence is finite and contingent with awareness of our own historicity *Marxism, communism and western society* Claus Dieter Kernig, 1973
