## Neutrality In Austria:

**Neutrality in Austria** Anton Pelinka, 2018-04-17 After Stalin's death during a respite in Cold War tensions in 1955 Austria managed to rid itself of a quadripartite occupation regime and become a neutral state. As the Cold War continued Austria's policy of neutrality helped make this small country into an important mediator of East-West differences and neutrality became a crucial part of Austria's postwar identity. In the post-Cold War era Austrian neutrality seems to demand redefinition. The work addresses such issues as what neutrality means when Austria's neighbors are joining NATO. What is the difference between Austrian neutrality in 1955 and 2000? In remaining apart from NATO, do Austrian elites risk their nation's national security? Is Austria a free rider too stingy to contribute to Western defense? Has the neutralist mentality become such a crucial part of Austrian postwar identity that its abandonment will threaten civil society? These questions are addressed in this latest in the prestigious Contemporary Austrian Studies series. The volume emerged from the Wittgenstein Research Center project on Discourse, Politics and Identity, an interdisciplinary investigation of the meaning of Austrian neutrality. The first two chapters analyze the current meaning of Austrian neutrality. Karin Liebhart records narrative interviews with former presidents Rudolf Kirchschlger and Kurt Waldheim, both central political actors present at the creation and implementation of Austria's postwar neutrality. Gertraud Benke and Ruth Wodak provide in-depth analysis of a debate on Austrian National Television on NATO and Neutrality, a microcosm of Austrian popular opinion that exposed all positions and ideological preferences on neutrality. The historian Oliver Rathkolb surveys international perceptions of Austrian neutrality over the past half century. For comparative contrast David Irwin and John Wilson apply Foucault's theoretical framework to the history and debates on neutrality in Ireland. Political scientists Heinz Grtner and Paul Luif provide examples of how Austrian neutrality has been handled in the past and today. Michael Gehler analyzes Austria's response to the Hungarian crisis of 1956 and Klaus Eisterer reviews the Austrian legation's handling of the 1968 Czechoslovak crisis. Gnter Bischof is professor of history and executive director of Center Austria at the University of New Orleans. Anton Pelinka is professor of political science at the University of Innsbruck and director of the Institute of Conflict Research in Vienna. Ruth Wodak is professor in the linguistics department at the University of Vienna and director of the research center Discourse, Politics, Identity at the Austrian Academy of Science. Bundesministerium für Auswärtige Angelegenheiten, Gerald Stourzh, Karl Zemanek, 1900 **Austria's Neutrality Today and its Impact on the Nation's Security** Sophia Barolo, 2017-08-02 Seminar paper from the year 2016 in the subject Politics. Topic: Peace and Conflict. Security grade 1.7 University of Lisbon. Language: English. Abstract: In my paper I want to investigate to which extent Austrian neutrality is still existing. Is it yet more than a romantic picture of our home country? How has this concept been affected by the membership in various International Organizations, especially the EU? And how does a

neutral state cope with its security in a globalized world My hypotheses are that in the course of time Austria has quietly given up neutrality in favor of the benefits of being part of the international community Security Policies are coordinated and in a globalized world that is continuously moving closer together cannot work independently Therefore Austria has to participate and cannot hide behind its neutrality **The Permanent Neutrality of Austria** Alfred Verdross,1978

**Republic of Austria** Alfred Verdross,1967 *The Ideological Cold War* Johanna Rainio-Niemi,2014-02-05 This book opens new perspectives into the Cold War ideological confrontations Using Austria and Finland as an example it shows how the Cold War battles for the hearts and minds of the people also influenced policies in countries that wished to stay outside the conflict Following the model of older European neutrals Austria and Finland sought to combine neutrality with democracy The combination was eagerly challenged by ideological Cold Warriors on both sides of the divide and questioned at home too Was neutrality risking the neutrals commitment to democracy or did the commitment to the western type of democracy threaten their commitment to neutrality Confronting these doubts grew into an organic part of practicing neutrality in the Cold War world The neutrals needed to be exceptionally clear regarding the ideological foundations of their neutrality Successful neutrality required a great deal of conceptual consistence and domestic unanimity None of this was pre given in Austria or Finland However in the model of Switzerland and Sweden armed neutrality was systematically integrated with the official state ideology and promoted as a part of national identity Legacies of these policies outlived the end of the Cold War

A Cold War over Austria Gerald Stourzh, Wolfgang Mueller, 2018-11-12 After World War II Austria was occupied by Soviet American British and French forces This study provides the history of the treaty that was negotiated in order to end this occupation In the Moscow Declaration of 1943 the United States Great Britain and the Soviet Union had declared that Austria should be liberated from Nazi rule and reconstructed as an independent state After the war however this goal was soon overshadowed by security and power considerations and then by the Cold War While the West strove to safeguard Austria's independence from communist expansion the USSR refused to finalize a treaty and to withdraw from its zone in the eastern part of the country In the end it took until 1955 to come to an agreement and receive Soviet consent for a treaty An important Soviet precondition for agreeing to withdraw was Austria becoming a permanently neutral country The roots of Austria's neutrality as traced in this volume were not only linked to Soviet but also to Austrian considerations Based on US Soviet British French German Swiss and Austrian documents the book analyzes the risks pitfalls and blockades that had to be avoided and overcome before Austria could finally regain its independence and be reconstructed
