## New Absolutes:

Metamorphoses of the Absolute Otto Neumaier,Daina Teters,2019-01-10 This collection of essays is devoted to the diversity of the conceptual and terminological definitions of the notion of the absolute Absolute comprises both the concepts of the Western world related to God and the verbal constructions flowing from these ideas in the spheres of law philosophy linguistics politics medicine literature and arts Over time absolute and its neologisms have undergone various modifications assuming the associated characteristics of syntactic ambiguity and inflation Absolute can imply an increase in the degree of a quality attached to some object or phenomenon and can be used as either an adverbial modifier or a proper noun In its appearances as a procedural term absolute mostly conveys a negative connotation when evaluating some action The question posed in this book is not what absolute is but what possibilities exist with regard to perceiving and conceptualizing it in human terms both historically and in the present     *Outrageous Truth...* Robert Jeffress,2008-03-18 SEVEN OUTRAGEOUS TRUTHS YOU CAN STILL BELIEVE AND WHY Every other religion is wrong God sends good people to Hell Homosexuality is a perversion Evolution is a myth God is ultimately responsible for suffering in the world Husbands are to lead their families America is a Christian nation In Hell Yes Dr Robert Jeffress issues a bold wakeup call to all believers from college students to grandparents to stop apologizing for and start proclaiming the tough but essential truths that Christians have historically embraced And he provides the finest biblical scientific and historical evidence needed to defend these core beliefs in a culture turned hostile to God s truth Dr Jeffress believes the secular spirit of political correctness is holding the church hostage And the tragic result is that the revolutionary life changing positive message of the Christian faith is being watered down If you are weary of a Christianity that waffles and wavers about controversial issues if you are ready to stand up and compassionately yet forcefully and intelligently say This is what I believe and here s why then this book is for you     *The Ethics of Resistance* Drew M. Dalton,2018-08-23 Opening a new debate on ethical reasoning after Kant Drew Dalton addresses the problem of the absolute in ethical and political thought Attacking the foundation of European philosophical morality he critiques the idea that in order for ethical judgement to have any real power it must attempt to discover and affirm some conception of the absolute good Without rejecting the essential role the absolute plays within ethical reasoning Dalton interrogates the assumed value of the absolute Dalton brings some of the most influential contemporary philosophical traditions into dialogue with each other speculative realists like Badiou and Meillassoux phenomenologists including Husserl Heidegger and Levinas German Idealists especially Kant and Schelling psychoanalysts Freud and Lacan and finally post structuralists specifically Foucault Deleuze and Ranciere The relevance of these thinkers to concrete socio political problems is shown through reflections on the Holocaust suicide bombings the rise of neo liberalism and neo nationalism as well as rampant consumerism and racism This book re defines ethical reasoning as that which refuses absolutes and resists what Milton s devil in *Paradise Lost* called the tyranny of heaven Against traditional ethical reasoning Dalton sees evil not as a

moral failure but as the result of an all too easy assent to the absolute an assent which can only be countered through active resistance For Dalton resistance to the absolute is the sole channel through which the good can be defined **The Return of the Gods** Jonathan Cahn,2022-09-06 NEW YORK TIMES Best Selling Author From the author that brought you 6 New York Times best selling books including The Harbinger The Book of Mysteries The Oracle and The Harbinger II Is it possible that behind what is taking place in America and the world lies a mystery that goes back to the gods of the ancient world and that they now have returned The Return of the Gods is the most explosive book Jonathan Cahn has ever written It is so explosive and so revealing that no description here could do it justice Jonathan Cahn is known for revealing the stunning mysteries many from ancient times that lie behind and are playing out in the events of our times But with The Return of the Gods Cahn takes this to an entirely new level and dimension The Return of the Gods Cahn takes the reader on a journey from an ancient parable the ancient inscriptions in Sumer Assyria and Babylonia that become the puzzle pieces behind what is taking place in our world to this day specifically in America Is it possible that what we in the modern world take as nothing more than ancient mythology could actually possess a reality beyond our fathoming Who is the Possessor The Enchanter The Destroyer And the Sorceress Could a sign that has appeared all over America and the world be linked to the gods of Mesopotamia And if so what does it actually mean Could the gods have returned to New York City and an ancient mythology played out on the streets in real time Is it possible that the gods lie behind everything from what appears on our computer monitors our televisions and movie screens to the lessons given in our classrooms to the breakdown of the family to wokism to the occult to our addictions to the Supreme Court to cancel culture to children s cartoons to every force and factor that has transformed the parameters of gender to that which appears in our stores on our T shirts and on our coffee mugs to that which is at this very moment transforming America and much of the world Is it possible that behind all these things are ancient mysteries that go back to the Middle East and ancient Mesopotamia This and so much more most of which we can t even reveal in this description will be uncovered The Return of the Gods is not only one of the most explosive books you ll ever read but also one of the most profound It will reveal the most stunning secrets and truths behind what is happening before your eyes in America and the nations You will see things even in your world in a whole new light With such chapters as The House of Spirits The Avatar The Masters The Deep Magic and The Day of the Goddess The Return of the Gods will take readers on a fascinating unforgettable and mind blowing journey that will leave them stunned and with the ability to see the world as they never have before Be prepared to be blown away as you open up Jonathan Cahn s most explosive book ever The Return of the Gods **Legislating Morality** Norman L. Geisler,Frank Turek,2003-02-12 America s moral decline is not secret An alarming number of moral and cultural problems have exploded in our country since 1960 a period when the standards of morality expressed in our laws and customs have been relaxed abandoned or judicially overruled Conventional wisdom says laws cannot stem moral decline Anyone who raises the prospect of legislation on the hot topics of our day

abortion family issues gay rights euthanasia encounters a host of objections As long as I don t hurt anyone the government s should leave me alone No one should force their morals on anyone else You can t make people be good Legislating morality violates the separation of church and state Legislating Morality answers those objections and advocates a moral base for America without sacrificing religious and cultural diversity It debunks the myth that morality can t be legislated and amply demonstrates how liberals moderates and conservatives alike exploit law to promote good and curtail evil This book boldly challenges prevailing thinking about right and wrong and about our nation s moral future

**Ricœur at the Limits of Philosophy** Barnabas Aspray,2022-08-25 Can finite humans grasp universal truth Is it possible to think beyond the limits of reason Are we doomed to failure because of our finitude In this clear and accessible book Barnabas Aspray presents Ricœur s response to these perennial philosophical questions through an analysis of human finitude at the intersection of philosophy and theology Using unpublished and previously untranslated archival sources he shows how Ricœur s groundbreaking concept of symbols leads to a view of creation not as a theological doctrine but as a mystery beyond the limits of thought that gives rise to philosophical insight If finitude is created then it can be distinguished from both the Creator and evil leading to a view of human existence that instead of the anguish of no proclaims the joy of yes
