New Approach To Bidding Complete Hand Valuation And The Midmac System:

A New Approach to Bidding Jon Drabble,1995 An introduction to the Midmac system The limitations of the standard HCP evaluation system are widely recognized so Complete Hand Valuation which takes full account of distribution is designed to appeal to all players below expert class whether their game is contract or rubber bridge **MIDMAC Bidding** Gijs Haarlem,2004-06 Bridge bidding using the MIDMAC system for intermediate and better players Whitaker's Books in Print ,1998 **Books in Print** ,1991 Subject Guide to Books in Print ,1997 **The Optimal Modified 2/1-Club System**

Neil H. Timm Ph.D.,2022-03-23 My goal for The Modified Optimal 2 1 Club System is to show how to use the Optimal Point Count OPC method of hand evaluation developed by Patrick Darricades in his book Optimal Hand Evaluation 2019 to improve the dialogue between two players to achieve an optimal bridge contract The primary objective is to demonstrate how to apply the new system approach to contract bridge by illustrating a more accurate method of hand evaluation whether you play 2 1 Standard American SA Acol or Precision among others The Two over One 2 1 Game Force bidding system was an improvement over the SA System that has been in effect and played by bridge players for many years Many claim that the advantage of the 2 1 system allows the partnership to know that game is possible with only a single bid provided one has 13 points As we shall see for suit contracts it is only true if the opening 2 1 bidder has 15 points not 12 13 points since 25 26 points do not result in game whenever a singleton in one hand finds wasted honor points in partner's hand Yet most 2 1 conventions call for 13 High Card Points HCP Another flaw of the 2 1 approach is the fact that opening 1 level suit bids have a wide bidding range 12 21 To eliminate this flaw the principles of Pinpoint Precision with 1 18 points and new responses associated with a new and improved hand evaluation method A major flaw of most Strong Club opening bids is that they are based solely on HCPs with opening bids of 1 16 17 HCP To correct these flaws among others the search for a better hand evaluation method and a better bidding system has been unrelenting Hand evaluation methods have been popularized by Milton Work Charles Goren Marty Bergen and Petkoy Zar and others All falling short when applied to the commonly used dialogue bidding systems The Optimal Point Count OPC method of hand evaluation corrects the many flaws of prior hand evaluation methods when applied to any bidding system In this book many traditional standard bidding practices that do not help to show suit fit and distribution are to be avoided or re defined Splinters and mini splinters which show the location of voids and singletons to help locate wasted honors the XYZ bidding convention cue bidding and new bids for the investigation of game and slam are among the cornerstone conventions reviewed in this book Newly defined 2 and 3 level bids to show hands with 6 7 card suits are defined to prevent the opponents from finding their optimal contract and to improve upon difficult bidding sequences using traditional bidding strategies The evaluation of one's Offense to Defense Ratio ODR why many well known bidding sequences must be avoided and an analysis of several old standard bridge laws rules are reviewed to show why they need not be used to improve one's judgement if one employs the OPC method *Mastering Hand*

Evaluation Lawrence Diamond, 2015-04-01 ADVANCE YOUR PARTNERSHIP COMMUNICATION THROUGH HAND EVALUATION Getting to good games slams and staying out of poor contracts is an important aspect of bridge. The best way to improve your bidding is not to add a new convention but to improve your hand evaluation skills. In Mastering Hand Evaluation Understanding the Principles of Partnership Bidding you will learn about the science of hand evaluation going far beyond 4 3 2 1 high card points. Enhance your ability to recognize good cards and discover the magic of the 30 point deck. Popular point count and losing trick count methods are examined and tested with a database of over 121 000 hands from championship play as well as practice matches with at least one world champion at the table. Improvements to the best methods are introduced based on the results. When should you invite on the way to 3NT? When there is a known fit how many losers does partner have for his 1NT opening? Based on the modified New Losing Trick Count how many losers do you need to start a slam investigation if partner may have more than minimum values? When you learn the answers to these questions and apply the techniques your partnership communication skills will improve dramatically. Hand evaluation is not simply a personal skill. If you and your partner study these techniques together you will both be on the same wavelength. Your new found ability to have an intelligent conversation during the auction will lead to better bridge results. Lawrence Diamond is a Gold Life Master with multiple Bracket 1 and Flight A wins. In 2014 he ranked 265th on the Barry Crane Top 500 list. *New Approach to Bidding* Ramboro Books, 1997-08
