Introducing readers to the contemporary field of sacramental theology this volume covers the biblical and historical foundations a survey of the state of the discipline and a collection of constructive essays representing major themes practices and approaches to sacraments and sacramentality in the contemporary world The volume starts with a set of foundational essays that offer broad introduction to the field of sacramental theology from contemporary scholars analysing a number of historical figures in order to illumine and inform contemporary sacramental theology The second part of the volume is dedicated to a series of essays on sacramentality and includes attention to elements of space time ritual action music and word all as aspects of what Christians have termed sacramental reality The third set of essays includes attention to each of the seven practices that have most commonly been termed sacraments in Christian traditions baptism eucharist Lord's Supper confirmation confession forgiveness and reconciliation marriage ordination and anointing The final part of this volume features scholars who are working on sacraments in conversation with contemporary academic disciplines critical race theory queer theory comparative theology and disability studies     **Canon Law** Libero Gerosa, 2002 One of the main demands of Vatican II Council with respect to Canon Law was to always focus on the mystery of the Church This clear and distinct position led to a renewal of the methodology applied to the discipline of Canon Law in almost all post conciliar schools The canonistic demand however similarly to change the didactic tools the teaching material in this new context has proved to be less significant Knowing the importance and the urgency of this initiative has been a strong source of motivation to the author The leading and inspiring idea behind this initiative is the conviction that the formal principles of Canon Law both as the inner structure of the Church community as well as a proper scientific method are the three fundamental elements of the constitution of the Church the Word the Sacrament and Charisma     **The Sacraments** Robert Cabié, 1988 Traces the development of Catholic worship from the apostolic Church to the present     **Sacramental Theology** Kenan B.
