Antiquity to the Middle Ages is the first monograph dedicated to the supernatural methods employed by Jews in order to generate love grace or hate Examining hundreds of manuscripts often unpublished Ortal Paz Saar skillfully illuminates a major aspect of the Jewish magical tradition The book explores rituals spells and important motifs of Jewish love magic repeatedly comparing them to the Graeco Roman and Christian traditions In addition to recipes and amulets in Hebrew Aramaic and Judaeo Arabic primarily originating in the Cairo Genizah also rabbinic sources and responsa are analysed resulting in a comprehensive and fascinating picture Due to the general neglect of the topic in previous scholarship the richness of the research corpus and the scientific precision of the author Saar's Jewish Love Magic is an important volume that should be on the shelf of every scholar focusing on ancient Jewish magic but also on Jewish culture and cultural history in general Furthermore the book is an enjoyable read also for a non-specialist audience thanks to its clarity and fluency Alessia Belusci Yale University in *Journal of Semitic Studies* 64 2 2019 This is a valuable foray into the relationship between institutionalised religion and magic and the complex question of legitimacy Overall the book presents a compelling case for the existence of Jewish love magic

Ann Jeffers *Journal for the Study of the Old Testament* 43 5 2019 *Ancient Greek Love Magic* Christopher A. FARAONE, Christopher A. Faraone, 2009-06-30 The ancient Greeks commonly resorted to magic spells to attract and keep lovers as numerous allusions in Greek literature and recently discovered voodoo dolls magical papyri gemstones and curse tablets attest Surveying and analyzing these various texts and artifacts Christopher Faraone reveals that gender is the crucial factor in understanding love spells There are he argues two distinct types of love magic the curselike charms used primarily by men to torture unwilling women with fiery and maddening passion until they surrender

sexually and the binding spells and debilitating potions generally used by women to sedate angry or philandering husbands and make them more affectionate Faraone's lucid analysis of these spells also yields a number of insights about the construction of gender in antiquity for example the femininity of socially inferior males and the maleness of autonomous prostitutes. Most significantly his findings challenge the widespread modern view that all Greek men considered women to be naturally lascivious. Faraone reveals the existence of an alternate male understanding of the female as naturally moderate and chaste who uses love magic to pacify and control the naturally angry and passionate male. This fascinating study of magical practices and their implications for perceptions of male and female sexuality offers an unusual look at ancient Greek religion and society.
