**Loving Man** Mark Freedman, Harvey Mayes, 1976     **Gay Macho** Martin P. Levine, 1998 A sociological study of the emergence of the gay male culture from the explosion of gay liberation in the early 1970s through the beginning of the AIDS crisis of the mid 1980s. The first half of the book is the dissertation of Levine who based it primarily on field work conducted in Greenwich Village's growing gay community in the late 1970s. He looks at the sociology of gay masculinity, hypermasculine sexuality and gender confirmation and the birth of the gay clone. The second half of the work is made up of essays which chronicle the beginning of the AIDS epidemic, examine the myth of sexual compulsivity and look at the implications of constructionist theory for social research on the AIDS epidemic. **The Psychology of Sexual Orientation, Behavior, and Identity** Louis Diamant, Richard McAnulty, 1995-10-18 This comprehensive overview of research issues and theories relating to sexual orientation, behavior and identity by experts in various disciplines is unique in providing both historical perspectives and a synthesis of the recent advances in understanding homosexuality and heterosexuality. Drawing from biological and psychological research this handbook critically reviews the major theories about sexual orientation and examines each theory on the basis of empirical support. One section summarizes recent developments in genetic and neuroanatomic research. Another section discusses problems with sexual performance among heterosexual, homosexual and bisexual persons. A third section provides overviews of clinical disorders or sexual deviations. Various chapters clarify the distinction between sexual disorders such as pedophilia and sexual variations such as homosexuality. Chapters also examine important social issues relevant to sexual orientation such as disability, prejudice, aging and gender roles. Experts address the continuing controversy over the feasibility of altering sexual orientation, new developments in treating different types of problems and changing perspectives today. This handbook is designed for the use of educators, students and researchers in the social and behavioral sciences.
